S61.3-1,1-V

1987-88 ANNUAL REPORT

Volume 1

Dedicated to growth and excellence

Oklahoma State Department of Education

Gerald E. Hoeltzel
State Superintendent
of Public Instruction

Oklahoma State Department of Education
Gerald E. Hoeltzel, State Superintendent of Public Instruction

The Honorable Henry Bellmon
Governor of Oklahoma

Members of the Oklahoma Legislature

Oklahoma is a state that is dedicated to growth and excellence. This dedication is seen in the leadership of our government, the hard work of our citizens, the commitment to excellence by our educators, and the positive success of our business organizations and service agencies. Steady economic growth is becoming a reality for Oklahoma because of the efforts and partnerships formed by these people.

The report submitted in this document is evidence that a partnership between educators and the leaders of our government/business is underway. Many educational improvements have been implemented that affect students, teachers, administrators and, ultimately, the future well-being of our state.

We believe our commitment to excellence and dedication to growth is a key factor to obtaining economic prosperity for Oklahoma. As you read and reflect on this report, please be assured that we will continue to form valid partnerships dedicated to educational excellence, and that as these partnerships thrive, our great state will prosper.

Respectfully submitted,

Gerald E. Hoeltzel

Gerald E. Hoeltzel
State Superintendent
of Public Instruction

2500 North Lincoln Boulevard Oklahoma City, Oklahoma 73105-4599

Executive Services

STATE BOARD OF EDUCATION

Gerald E. Hoeltzel	State Superintendent and President
Burt Bartlett	Woodward
Helen Jane Givens	Mangum
Ray H. Potts	Oklahoma City
Forest W. Reece Jr	Tulsa
Jimmy V. Scales	Tulsa
Dr. C.B. Wright	Stroud
Garreline A. Ebert	Chief Executive Secretary

The State Board of Education is the governing board of the State Department of Education and the public school system of the state. These members also serve on the State Board of Vocational and Technical Education.

The Board consists of seven members. The state superintendent of public instruction, who is elected for a four-year term by the people, serves as a voting member and president of the Board. The remaining six members are appointed by the governor and confirmed by the Senate and serve staggered, overlapping six-year terms. A term expires each year on April 1. Each member receives travel expenses, as allowed by law, while in the performance of his duties.

The State Board of Education meets in regular session once each month. Special meetings may be called by the president or by a majority of the members of the Board.

The control of the State Department of Education and the supervision of the public school system is vested in the State Board of Education and its duties include:

- Establishing and prescribing the duties of its executive officer, one duty of which is to give advice and make recommendations on all notices pertaining to policies and administration of the State Department of Education and the public school system; and
- Adopting policies, rules, and regulations for operation of the State Department of Education and public school systems.

The chief executive secretary serves as the clerk of the State Board of Education and the State Board of Vo-Tech Education. She is responsible for staff direction of two people, future planning, and serves as liaison between the National Association of State Boards of Education and the two state boards.

Specific duties of the office are to process tax-sheltered annuity contracts for the Department; monitor and report on Due Process Teacher Hearings; write, edit and update Board publications and reports; maintain a long-range agenda; keep a history of Board members; write and preserve Board minutes; prepare agendas and arrange Board meetings; publish and preserve all rules and regulations as required by law; sign and seal all legal documents of the Boards; establish written office procedures; and prepare Board records for preservation at Records Center and Archives.

SPECIAL ASSISTANT TO THE STATE SUPERINTENDENT

Assists the State Superintendent with special reports and projects; personally represents the State Superintendent on several Boards and Commissions; develops, manages and supervises a program of public information, including communications with the public, educational community, business and industry, the news media, and other state, local and federal entities, and coordination of news conferences.

The Special Assistant to the State Superintendent supervises the Special

Projects Coordinator and the Community and Public Relations Section.

Through this office and these staff members, all press releases, articles, speeches and publications are designed, written, edited and distributed. Major monthly publications include *Oklahoma Educator*, *Superintendent's Newsletter* and *Inner View*. Also, the Special Assistant serves as the editor for several statewide publications including the *Oklahoma Report* (North Central Association newsletter), *Focus* (Oklahoma Women in Education Administration's newsletter) and *Countdown* (the official newsletter for the Aerospace Foundation of Oklahoma).

In addition, regular publications produced by the State Department of Education include the Oklahoma Educational Directory, the Annual Report (two volumes), and various other books, brochures and newsletters.

The Special Assistant coordinates the master calendar as well as meetings for the Superintendent's Advisory Council. The Special assistant serves on the Oklahoma Economic Development Committee in accordance with H.B. 1444 to help develop Oklahoma's Strategic Five-Year Economic Development Plan for the State Department of Education. She also serves as liaison for the Governor's Education Committee, the Governor's Task Force on Aerospace Education, the Education and Its Impact on Economic Growth Task Force (H.B. 1444), the Oklahoma Commission on Educational Leadership, Martin L. King Commemorative Committee, Oklahoma Conference on Education, Oklahoma Veteran's Memorial Committee, Oklahoma Academy of State Goals, Oklahoma Committee for Safety Belt Use and the Oklahoma Business/Partnerships Committee. She represents the State Superintendent on the board of directors for Junior Achievement, Urban League, the Kirkpatrick Center, and is consultant to the Executive Board for Oklahoma Association of Elementary School Principals. The Special Assistant serves as an officer of the following organizations: Oklahoma Association for Supervision and Curriculum Development, the Educator's Hall of Fame, Oklahoma Women in Education Administration and the Aerospace Foundation of Oklahoma.

The Special Assistant directs the SDE involvement of in-kind services for special projects which combine the interests and needs of schools/business/community. Such projects include Christa McAuliffe Fellowship Program, Children's Medical Research, "Salute to Oklahoma's Young Leaders," Oklahomans Helping Oklahomans, Take Pride in America Campaign, McGruff Puppet Program, and Martin Luther King Celebration.

The annual Oklahoma Conference on Education, the Education Flag ceremony and the Oklahoma Commission on Educational Administration's public service announcements are other outreach community activities under the special assistant's direction. She attends all State Board of Education meetings, administers the electronic mail system for the Department and serves as liaison with the media.

Major tasks for the coming year are the publication of an additional progress report, an informational brochure on the SDE, expansion of the public service program, research articles on illiteracy, early childhood education, at-risk students, AIDS education and other pertinent issues.

COMMUNITY & PUBLIC RELATIONS

The Community and Public Relations Section provides a steady flow of useful information to classroom teachers through the columns of the *Oklahoma Educator*, published seven times during the school year. Its columns are filled with reports on workable and innovative programs used by teachers which, through these reports, are shared with teachers throughout the state.

Sufficient copies are printed each issue for every classroom teacher in Oklahoma and are mailed to every school building in the state.

School administrators are also kept well-informed through the twice-monthly publication, *Superintendent's Newsletter*. This publication keeps local school district superintendents, building principals and school board members up-to-date on

changes in the law, attorney general's opinions, changes in policy and regulation, State Board of Education actions and any other developments which affect the administration of local and state school affairs.

In addition, the news media is kept advised of school news through the publication and distribution of news releases as needed. The news media is also assisted, when requests are made, in arranging interviews with State Department of Education officials.

Many requests for information from the general public are also processed by the Community and Public Relations Section. Telephone calls received from the public are quickly channeled to the correct source in the belief that no one should be needlessly shunted from one office to another in the quest for answers.

This section also provides technical assistance, through typesetting, art and design work, for the preparation of curriculum guides, policy reports and other documents needed in the everyday business of providing educational materials.

A computerized mailing list of more than 6,000 addresses is maintained in this office for labels printed in the Research and Data Center for use in all sections of the Department.

The Oklahoma Legislature, governor's office, budget office and local school district administrators are provided with an annual report, publication of which is coordinated by this office, and which provides the financial and statistical information needed in developing the annual budget for school operation.

RESEARCH & DATA SERVICES

The Research and Data Services Section provides a combination of data processing and information analysis. The Data staff designs, develops and maintains computerized software systems for numerous departments within the education agency. The computerized systems enable each section as it collects data from outside sources, to do on-line entering of data, updating, processing and reporting. Consultation service is provided by the Data staff for anticipated hardware acquisitions, hardware and software support system design and the analysis of computer output data. Information that can currently be supplied includes district names and addresses, accreditation status, class sizes, attendance statistics such as average daily attendance and average daily membership, revenues and expenditures, teacher certification, school plant facility inventory, entry-year teacher status and federal program evaluations. Data processing services are also used to provide in-house support for such activities as fiscal services, accounting and payroll.

The Research staff provides analysis and dissemination of information to the Department's executive staff, the legislature, school administrators and other information users. The goal of the Research staff is to provide an effective interpretive link between the extensive data base available and decision makers at all levels who seek information pertaining to schools. Assistance is also provided in designing and conducting various evaluation studies used by Department staff.

During 1987-88, Research and Data Services provided information and data for legislative use in making decisions on education and state agency bills which resulted in 30 new or amended statutes. In addition, over 100 requested computer studies of alternative fund distribution proposals showing effects on teachers, students, school districts, school sizes, teacher/pupil ratio, and other available funds were processed and provided to legislators, other policy makers, and their staffs. This unit also provided technical writing assistance and administration of approximately $1.8 million in legislatively funded instructional computer grants which were awarded for the 1987-88 school year by the State Board of Education.

The Data Section continued to provide scheduling, attendance, and grade reporting for those local districts who use state computer time while assisting them in developing their own use of current technology. Research and Data staff participated in the design of evaluation forms for various programs in order to

facilitate the most effective use of information from those forms.

Research staff assisted the Paperwork Commission project involving the review of all forms used by the State Department of Education to collect information from schools. A computerized inventory of all forms was underway at the end of the fiscal year to provide a data base and control mechanism which will eliminate the need for duplication of effort at the district level. Research staff also participated in a nationwide Education Data Improvement Project sponsored by the Council of Chief State School Officers and the U.S. Department of Education Center for Education Statistics. Another major responsibility of the Research staff involves the verification and submission of data to the U.S. Department of Education for use in funding formulas to the states.

During 1987-88 the programmers and support staff of the Data Services Section concentrated on finalizing the software conversion mandated by the hardware conversion to a new computer mainframe. The manual personnel services system was automated and integrated with the payroll system. In addition, a project to automate the Federal Programs Division was started.

A new section within Research and Data Services was created to provide support for microcomputer users and to study the feasibility of and make recommendations for automating more than 600 school districts in Oklahoma.

Research and Data Services contributed to improvements in education during 1987-88 by providing the aforementioned services. The members of this unit continued toward achieving the goals of providing useful management data, evaluation and analysis in the area of appropriations, demographics on teachers, students and school districts, programs, expenditures and funding.

Instructional Services

ACCREDITATION SECTION

The Accreditation Section is an integral part of the Division of Instruction of the State Department of Education. The Accreditation Section is charged with the leadership and the responsibility to interpret the policies and criteria as prescribed by the State Legislature and the State Board of Education under the direction of the state superintendent of public instruction.

The Accreditation Section is composed of a director and two assistant directors, three secretaries and 19 regional accreditation officers. The regional accreditation officers have specific responsibilities and are responsible to serve specific counties based on density of size and the number of schools in the assigned areas. The regional accreditation officers are responsible to the Division of Instruction and the administrator of the Accreditation Section.

The accreditation of the public schools in Oklahoma is the function of the State Board of Education. The responsibility of meeting the standards of accreditation lies with the local school district. It is the policy of the State Board of Education to accredit schools primarily on the quality of instruction.

Elementary schools in high school districts are expected to meet standards and regulations for accrediting before the secondary school can be accredited.

Accrediting depends largely upon instructional conditions maintained in the elementary and secondary schools. Command of the fundamental processes is considered of primary importance in all subsequent education. Consequently, the entire program of education is examined as a basis for accreditation.

It is the policy to consider stability and permanence of the school organization and teaching staff as factors in accrediting schools. Frequent changes in the organization of the teaching staff directly affect the continuity and efficiency of instruction.

Each school is expected to meet the standards and regulations for accrediting at the opening of the term and to maintain these standards throughout the entire year.

The regional accreditation officers are responsible for visiting every school within their assigned area for the purpose of assisting schools in meeting required standards and recommending those schools to the administrator of the Accreditation Section who in turn presents and recommends them to the State Board of Education for accreditation for the preceding school year.

In addition to public schools in our state, legislative provisions are made to accredit parochial and private schools "in like manner" as public schools. During the 1987-88 school year 34 schools in this category were accredited by the state department. These schools are also the responsibility of the regional accreditation officers. The regional accreditation officers are responsible for the areas of monitoring local school board policies, physical facilities, properly certified and assigned teachers, curriculum/program studies (includes mandated areas involving House Bill 1816 and 1466), inventories, school year, school day, class size, teacher-pupil ratios, special education, Chapter 1 programs, attendance audits, activities regulations, etc.

During the preceding school year (1987-88) the accreditation section visited and recommended the following: 456 independent districts representing 491 high schools, six parochial high schools, 194 junior high schools, 147 middle schools, 40 area vocational technical schools, 155 dependent elementary schools, 32 parochial schools and two private schools.

North Central Association

The Accreditation Section is involved in a dual accreditation process. The North Central member schools in our state are also the responsibility of the regional accreditation officers. The North Central State Association is under the direction of the director of the Accreditation Section who serves as state North Central director. The assistant director for North Central, the assistant director for state accreditation and two regional accreditation officers serve as associate North Central directors. Two secretaries, along with the regional accreditation officers are also a part of the North Central accreditation process.

During the 1987-88 school year 173 secondary schools, one college preparatory school, 21 area vocational-technical schools, 89 elementary schools, 48 junior high/middle schools, five special functions schools, five unit schools and 67 schools for candidacy were recommended by the Oklahoma State Committee of the North Central Association to the Commission on Schools for accreditation.

Ninety-nine schools were evaluated by an on-site visiting team composed of 18-25 educators from colleges and universities, teachers and administrators from NCA schools and State Department of Education personnel directed by a State Department of Education regional accreditation officer.

Thirty-one schools had an NCA mini-visit as a follow up to their third year progress report. The mini visit teams were composed of two State Department regional accreditation officers and/or North Central directors.

Each school recommended for accreditation to the Commission completed an application which was certified as correct after an on-site visit and review by the regional accreditation officer. The state committee also reviewed the applications and then made its final recommendation.

An annual meeting of NCA administrators was held for the purpose of discussing current issues and the new policies and standards. Also, workshops were conducted for those schools that are to become involved in the self-study process and be reviewed by an on-site visiting team.

STAFF DEVELOPMENT/ENTRY-YEAR/ TEACHER EVALUATION SECTION

The director of the Staff Development/ Entry-Year/Teacher Evaluation Section is responsible for the administration of three major programs. The Entry-Year Assistance and Staff Development programs were mandated by 70 O.S. 1981, §6-150 and 158. To provide assistance regarding the programs and ensure that schools are in compliance with the regulations, four field-based coordinators are responsible to visit each of the state accredited schools. More than 6,000 beginning teachers have participated in the Entry-Year Assistance Program since 1982.

Each state-supported school district develops a plan that will strengthen instruction by providing opportunities for teacher inservice training and continuing education. This staff development plan must be approved by the local board of education and the State Board of Education. This section works with school districts to provide assistance to help schools comply with staff development procedures and regulations.

Another requirement for schools is the implementation of the Minimum Criteria for Effective Teaching and Administrative Performance, as mandated by 70 O.S. 1985, Supp., §6-102.2. The criteria were written by a committee of educators representing the different areas of education. After State Board approval of the criteria in December 1985, video and printed materials were prepared for training and distribution. Approximately 4,000 evaluators of certified personnel were trained in the use of the criteria at 105 sites in two-day sessions in April 1986. All training materials were placed in the 613 school districts to assist the schools with teacher training pursuant to the criteria. Training workshops for newly identified evaluators will be offered at appropriate intervals throughout the year.

Training for First Year Superintendents

in Oklahoma is a program that requires attendance at four seminars as follows: one week-long session in July, three sessions two days each during the school year. Since 1983, 172 superintendents have completed the program.

A training program similar to the First Year Superintendents in Oklahoma is available to principals of dependent schools on a voluntary basis. The first seminars for dependent school principals were held during two 2-day sessions in August and October of 1987.

The Oklahoma Teacher of the Year Award is an annual recognition process managed by the section. The Oklahoma winner is nominated for competition at the national level by the State Superintendent of Public Instruction. The overall program is sponsored by the Council of Chief State School Officers, Encyclopaedia Britannica, and Good Housekeeping Magazine.

TEACHER EDUCATION/ CERTIFICATION SECTION

In January, 1988, the separate sections of Teacher Education and Teacher Certification were again combined into one section with many diverse, though complementary, duties.

Teacher education and certification has undergone drastic changes during the past five years. Standards of teacher education programs have increased considerably, thereby including Oklahoma among the states with the highest standards for the teaching profession.

Oklahoma uses an "approved program" approach to teacher certification. Each institution of higher education which prepares teachers must have it's teacher education programs accredited by the State Board of Education. The 21 institutions of higher education which prepare teachers and administrators are evaluated by Teacher Education. As of July, 1988, those institutions with NCATE accreditation are jointly evaluated by NCATE members and the state teacher education administrator and team, thereby lessening the need for large visiting teams. Teacher Education assists colleges and universities in developing teacher education programs that meet the standards established by the Professional Standards Board and approved by the State Board of Education.

The faculty development program for teacher educators in the colleges and universities is administered through Teacher Education. The directors of Teacher Education programs at the colleges and universities are assisted with the interpretation of the teacher certification standards when needed.

By Oklahoma law, anyone serving in the capacity of a teacher or administrator in the state must hold a valid Oklahoma teaching certificate in the area to which he is assigned. Certification is a process through which a state officially recognizes an educator as a professional. A teaching certificate verifies that an educator has completed the preparation required to practice in a given field of teaching, leadership, or service and is entrusted by the state to perform in the best interests of students.

Standards for teacher preparation and certification reflect the philosophy inherent in the total educational program of a state. The state of Oklahoma ranks at the top nationally in the area of professional standards for teachers.

The Teacher Education and Certification Section provides a guarantee to the parents and children that the teachers in the state's classrooms meet adequate and appropriate academic standards which have been set by the Oklahoma State Board of Education.

The role of the Teacher Education and Certification Section is to issue appropriate teaching certificates to those who have completed approved teacher education programs and have been recommended for certification by an authorized official at an Oklahoma college or university. It is the further responsibility of this section to evaluate credentials of teachers who have completed their teacher education programs in another state. In addition, teachers who apply for renewal of their standard certificates are evaluated.

The Teacher Education and Certification Section maintains a permanent teacher certification file of every teacher who is certified. The records of active

teachers contain official transcripts, applications, certificates issued, evaluation checksheets, verification of degrees and copies of all correspondence with the teacher. A record is also kept of all teachers who have been certified since 1925.

As mandated by law, the Teacher\ Education and Certification Section, with the cooperation of the Oklahoma State Bureau of Investigation, can provide school districts with criminal history records of district employees or prospective employees.

The teacher education and certification process requires a close working relationship with the Teacher Testing/ Staff Development, School Accreditation, and Teacher Personnel Sections. Maintaining close ties with other state departments of education is necessary regarding teacher certification standards and the revocation of teaching certificates.

From July, 1987, to October, 1988, the Teacher Education and Certification Section issued 20,828 teaching certificates. This number reflects renewals of professional, standard certificates/endorsements, and licenses, new standard, provisional, emergency certificates, and licenses.

TEACHER TESTING SECTION

The Teacher Certification Testing Program is administered by the Teacher Testing Section. A contract is negotiated annually with a national research and testing firm which assists in the development, revision and administration of curriculum exams mandated in 70 O.S. 1981, §6-156 and 70 O.S. 1985 Supp., §6-162. The State Department of Education tests in excess of 4,000 examinees a year, over four test administration periods, at six different sites throughout the state for each administration. Test administrators are psychometrists and administrators from Oklahoma Regional Education Service Centers. Coordination of the registration process, site selection, test revision meetings, reporting of test results and media communications is done by the section.

RURAL EDUCATION & TECHNOLOGY SECTION

The Rural Education and Technology Section provides additional support and leadership to the small/rural school districts of this state. Oklahoma is a state of small schools. Three-fourths of the school districts of this state have less that 1,000 in average daily attendance and two-thirds of the districts are less than 500 in average daily attendance. This section serves as a liaison between the Department and rural education development activities.

The Rural Education and Technology Section directs the development of alternate systems of delivery of educational services to the small/rural schools. In order to meet the increased high school graduation requirements and higher college admission standards, many times the small school district must look at non-traditional methods of offering quality instruction in these areas. These academic cooperatives often represent a shared teacher, a shared facility, or a shared resource.

Academic Cooperatives

The 1987 session of the Oklahoma Legislature allocated $1 million for the purpose of awarding on a competitive grant basis, grant monies for the development of small school academic cooperatives. The director of rural education administered those grants. Fifty-five grants were awarded, representing cooperative efforts among 93 districts and several institutions of higher education. The small school cooperatives were developed to serve the academic areas of math, science, foreign language, computer education, and music. The rural education director provides technical assistance and inservice concerning academic cooperatives.

Satellite Instruction

Another alternate system of delivery of instruction facilitated by this section is satellite delivery of instruction to 93 rural schools in Oklahoma. The Oklahoma State University Arts and Sciences Teleconferencing Service has developed

comprehensive courses in German I, German II and Physics, which are downlinked from OSU two days a week for live-interactive instruction. Three days a week the students at each school site work on computer software, a voice-recognition unit, and a laboratory and are supervised by a certified coordinator. The director of rural education is responsible for program applications for these satellite programs.

The director serves as a liaison from the Department to the state organizations engaged in work in rural education. There are three major state organizations.

Clearinghouse

One of the difficulties in small/rural districts has been recruitment of teachers. The Rural Education Section facilitates a partnership project between the Department and the Employment Security Commission called the Clearinghouse for Elementary and Secondary Education. This listing is made available on the 10th of each month.

Through the section, activities are initiated for volunteer programs and partnerships between the business community, parents, and small school districts.

GIFTED/TALENTED SECTION

The Gifted/Talented Section, consisting of one administrator and two coordinators, has the responsibility of overseeing Oklahoma's SB 214. The law requires that all schools provide gifted/talented instruction for most frequently provided differentiated experiences within the regular classroom.

The section annually hosts fall workshops. This year the workshops were designed for classroom teachers providing service for the students within the regular classroom. The workshops, entitled "Enrichment Within the Regular Classroom," were presented four times at state lodges, including Western Hills, Lake Murray, Quartz Mountain and Roman Nose. The workshops were also presented in Buffalo and Idabel. Total participation in the fall workshops exceeded 1,000 people.

Additional workshops with emphasis on math and science and gifted education were made possible through funding from EESA Title II. The workshops were focused into different segments which allowed consultants to work with participants on their level of knowledge concerning gifted education as well as their curriculum specialty.

The beginning series focused upon differentiated curriculum options possible in math and science. The four beginning workshops were held in the fall of 1986 and the summer of 1987 and were attended by more than 400 teachers and administrators.

The advanced series focused upon inservice training for advanced teachers of the gifted in the area of minority identification or in the use of curriculum models for the gifted. The 130 participants were chosen from applications by an advisory committee and participated in four days of workshops led by national authorities in gifted/talented education.

The staff members also provided statewide technical assistance and inservice workshops upon request. Both coordinators worked closely with the rural education network and participated in Tactics, and inservice program in critical thinking sponsored by SEDL and the State Department of Education.

The staff also participated in the annual meeting of the Council of State Directors of Programs for the Gifted, the Second National TAG Symposium, Council for Exceptional Children, the National Association for Gifted Children, the Oklahoma Association for Gifted, Creative, and Talented Children, Oklahoma Women in Educational Administration, Oklahoma Association for School Curriculum Development, Oklahoma State School Boards Association, Oklahoma Conference on Education, and made a presentation to parents and teachers attending the Gifted/Talented Section of OEA and the State Superintendents' and Principals' Workshop, served on North Central Accreditation teams and judged the second annual State Academic Bowl.

During the eighth annual Duke Talent Identification Program, 962 7th grade students representing 136 private and public schools elected to participate in the

examination program taking either the SAT or ACT. Of the participating students, 239 scored high enough on the exams to be honored in a ceremony at Tulsa University. In addition, 21 students enrolled in accelerated classes at Duke's University the opportunity to receive secondary credit locally.

LIBRARY RESOURCES SECTION

The Library Resources Section has five professional library media specialists who are available for technical assistance to local education agencies in all areas of library media services. Assistance is frequently requested in the following areas: facility design, materials and equipment selection, new technologies for library management, long-range planning, utilization of library resources by teachers and teaching information skills.

Since 1978, the state legislature has appropriated funds for competitive grants for schools to develop new library media centers or improve existing ones. The 1987-88 appropriation was for $2,850,114. This funded 51 new projects and continued 187 others for a total of 238 projects.

Since the Library Improvement Program began in 1978, $16,238,832 has been appropriated for 474 projects. Evaluation of current and past Library Media Improvement grant programs shows significant gains in student achievement, amount of reading, and use of resources by teachers in instruction.

The Library Resources Section conducted inservice workshops for teachers, library media specialists, and administrators in districts, in addition to a two-day workshop that attracted over 1,700 participants. These workshops covered all areas of library media services.

Numerous publications were developed to assist library media specialists in selecting materials, giving instruction, and planning improvements in library services. New publications include two new guides that contain sample teaching units for teaching information skills in an integrated manner. These publications are *Stacks of Ideas, K-8* and *Stacks of Ideas, 7-12*.

INSTRUCTIONAL MEDIA SECTION

It is the responsibility of the Instructional Media Section to procure daytime programming on the Oklahoma Educational Television Authority (Channels 3, 11, 12, 13). These instructional television programs are broadcast Monday through Friday from 9:30 a.m.-3 p.m. for a 32-week period during the calendar school year. It is also the responsibility of the Instructional Media Section to purchase, lease, and/or produce the series selected for broadcast. The selection process is conducted on an annual basis utilizing expertise from various professionals in the field of educational programming, Instructional Television Advisory Committee, and educators actively using ITV.

Annually the section prepares and distributes the Instructional Television Schedule booklet. The book provides basic information needed in order to use instructional television programming. During the 1987-88 school year, 16,000 ITV schedule booklets were disseminated to Oklahoma educators. For maximum utilization, more than 17,900 individual teacher guides containing extensive program descriptions and recommended classroom activities were available to teachers upon request.

The Instructional Media Library, located in the Media Section, contains approximately 1,911 individual titles consisting of audiovisual materials for usage in an educational setting in Oklahoma public schools. More than 6,353 copies were mailed to the 907 public schools during the calendar school year. A Media Resource Catalog is available for further information on the utilization and ordering procedures of educational materials.

Another service of the section is to maintain an inventory of media equipment housed in the Oklahoma State Department of Education. The Media Section supplies the agency with media

equipment for loan, in addition to onsite facilities for previewing of audiovisual materials.

Inservice training in the areas of instructional television, audiovisual utilization, software development, as well as technical equipment training were provided by the staff to schools throughout the state. This training was also available to department personnel. The Instructional Media Section will continue to provide these services upon request.

TEXTBOOK SECTION

The Oklahoma textbook system was established by an act of the 21st Legislature and became effective July 1, 1948. The law was based on an amendment to Section 6, Article XIII of the Oklahoma Constitution. This amendment directed the legislature to provide a system of free textbooks for use by all pupils in the common schools of the state. The amendment required the governor to appoint a State Textbook Committee whose duty is to prepare an official multiple textbooks list for use in the common schools of the state.

The State Textbook Committee is now comprised of 13 members. Two members are appointed from each of the six congressional districts. All must be certified educators with at least five years experience. The 13th member is a lay citizen, educator not having a teaching certificate and having at least one child in the Oklahoma public school system. The committee must contain a majority of classroom teachers. Each member serves a three-year term. The terms are staggered with four new educators being named each year and the lay member every third year.

The responsibility, as defined by law, of the State Textbook Committee is to select up to 10 textbooks or series of textbooks for each subject for a period of not more than five years. The consideration process begins each year the last two weeks in May when a call-for-bids is issued to all publishers inviting them to submit their materials for adoption in those subjects called. During 1987-88 the State Textbook Committee considered materials in computers and language arts.

Bids must be received before Aug. 15. Samples of all items bid are furnished to the Committee and their advisors as well as to the State Textbook Section and to six congressional review centers. Materials are available to the public and during the last two weeks in October public hearings are held before the State Textbook Committee allowing citizens of Oklahoma who file a written request to appear and present testimony about materials up for adoption. Then, before Dec. 1, the committee meets and adopts textbooks.

Immediately upon completion of the adoption process the Textbook Section prepares and distributes to all school districts in the state an official adoption list. A system of samples for evaluation purposes is available to all schools through the textbook office. These samples must be requested by requisition from the school no later than Nov. 30 each year and shipment will be made to requesting schools after Jan. 1.

Local school districts go through their own textbook adoption process as required by law before June 1.

When the legislature appropriates money annually for textbook purchases, money is withheld in the textbook office for freight and handling and for the replacement of textbooks destroyed by fire, water, tornadoes or other natural disasters. The 1987-88 appropriation was $10,276,624 or $18.20 per student based on ADA.

During the 1987-88 school year, two claims totaling $8,544.20 were processed for rebinding adopted textbooks. For the same period, six schools required replacement of materials destroyed by fire, water or tornadoes. Those claims totaled $26,585.26. Unused money withheld from appropriations for replacement, freight and handling was carried forward to the 1988-89 school year and added to the new appropriation before its allocation.

The Textbook Section processes all correspondence authorized by the State Textbook Committee. This includes calls-for-bid, calls-for-substitution, bid processing, contracts and bonds between the

state and publishers, verification of contracts and bonds with the attorney general, filing of contracts and bonds with the secretary of state, notifications to schools of new adoptions or procedures, sample requests and incidental correspondence.

Another responsibility of the Textbook Section is the development and distribution of the Annual Textbook Requisition. It then becomes our responsibility to process the annual requisitions and subsequent supplemental requisitions for textbooks. During the school year, the Textbook Section processes approximately 2,000 requisitions. This requires that purchase orders be made, verifications be received and filed, warrants issued and accounts balanced for each purchase order. Account records are maintained within the Textbook Section for all school districts.

Coordination and communication among the Textbook Committee, the State Department of Education, publishers, depositories and each school district in the state are of paramount importance.

The Textbook Section has the responsibility of maintaining a smooth and effective textbook evaluation, selection and distribution process. Their effectiveness influences the most important aspect of the system: the quality of education for the students in Oklahoma.

ARTS IN EDUCATION SECTION

Since 1975, the Arts in Education Section has actively responded to school districts expressing a desire to develop a comprehensive arts program. The components of a comprehensive arts program include:

Arts education: sequential skill development in the major art forms: music, art, drama, dance.

Arts in basic education: integration of arts and other areas of basic skills.

Specialized arts: intentional integration of arts into the curriculum for special learners.

Resources: effective use of arts resources.

Competitive grants are available through the Arts in Education Section to assist 30 school districts and approximately 200 school sites with program implementation. These sites represent a geographic balance throughout the state and include rural and metropolitan school districts.

Networks

A formal network structure is a positive and distinctive feature of the arts in education program. The network is composed of:

Administrative network which includes administrators from each AIE grant site who meet on a regular basis to design "futuristic" implementation strategies.

Arts coordinator network which includes an individual (full- or part-time) from each grant site who serves as a liaison between the local school district and the State Department of Education and is directly responsible for program implementation.

Arts planning teams which include arts educators, classroom teachers, administrators, students and community leaders who plan specific programs at the local level.

The Program

The arts in education program is designed to meet the needs identified through the AIE assessment. Specific objectives are identified for each site and implementation strategies and timelines are determined. Examples of programming might include:

1. Attention to a specific art form (writing, drama) not presently addressed in the school curriculum.
2. Expansion of an existing art form. Example: environmental metal sculpture, poetry anthologies, etc.
3. Concentration on teacher training.
4. Community outreach involving individual local artists and arts organizations as well as parents.
5. Attention to a specific component of the program. Example: training classroom teachers, expanding content of existing arts classes.
6. Appropriate arts experiences for a specific school population (gifted, special education).

Resources & Staff Development

Approximately 400 weeks of artist residencies representing all art forms were awarded to AIE sites from the State Arts Council of Oklahoma. Residencies included teacher training workshops and direct contact with students. In addition to these workshops, numerous teacher training sessions were conducted throughout the state to accommodate special interests of teachers and administrators.

Evaluation

Mid-year and end-of-year assessments were used as indicators of progress in each district. The Arts in Education staff provided technical assistance based on these reports and communicated through network meetings and on-site visitations with each district to see that program objectives were being met. Although objectives at each grant site were many and varied, each represented movement toward stronger arts programs for all children.

Special Projects

Very Special Arts - Oklahoma (VSA-O) is a state affiliate of the National Very Special Arts Program through the Kennedy Center for the Performing Arts in Washington, D.C. The intent of this program is improved arts curriculum designs for the handicapped population. In addition to year-round programming, local, regional and state Very Special Arts Festivals are conducted throughout the state to celebrate artistic achievements of the handicapped population and to bring public visibility to the artistic needs of the handicapped population. The program has as its primary focus three model sites:

1) Oklahoma School for the Deaf
2) The Gatesway Foundation
3) Lawton Public Schools

COMPREHENSIVE HEALTH SECTION

The Comprehensive Health Education Section staff helps plan, develop, and implement effective health and physical education programs in the public and private schools of Oklahoma. Physical fitness testing, movement education, aerobics, gymnastics, drug education, vision, hearing, dental, and scoliosis screening and nutrition education are examples of areas in which the staff are working to improve instructional programs at the present time.

The staff organized and conducted 120 workshops concerning health and physical education programs to disseminate current ideas, methods, techniques, and uses of materials at elementary and secondary levels. These inservice workshops embrace those processes of communication and education which help individuals to learn how to achieve and maintain a healthy lifestyle.

Health fitness and physical fitness is encouraged as a basic of all health and physical education programs to improve the health status of Oklahoma youth through increased levels of fitness. During the 1987-88 school year, 150 schools were involved in the "Fitnessgram" program. This program tests the physical fitness levels of the students.

Supplemental physical fitness materials have been inserviced through 57 workshops. Materials disseminated were the Walt Disney educational physical fitness guides entitled "Fit to be You." The Comprehensive Health Education Section supplied 1,150 teacher guides for grades K-3, 4-6, 7-9 and 10-12, along with 235 packets.

In October of 1986, the President signed the Drug-Free Schools and Communities Act of 1986 omnibus drug education bill. The State Department of Education responded by assigning a member of the Comprehensive Health Education staff to work full-time in implementing this federal program. Oklahoma received approximately $1.5 million for prevention education programs in the schools during the 1987-88 school year and $1.8 million for the 1988-89 school year.

During the 1986-87 school year, the staff presented and participated in 47 workshops covering a wide range of drug education topics but focusing on positive prevention education programs. The staff also participated in several interagency drug education efforts such as the Chemical People Project (A

Generation At Risk), the Oklahoma Adolescent Health Task Force, Prevention Education Specialist curriculum planning, Central State University Health Education curriculum planning committee, Dare To Be You, "Drugs Destroy Dreams," Students Against Drunk Driving and the Governor's Task Force on Children and Youth.

In addition, the staff participated in various community efforts such as the Oklahoma Alliance Against Drugs, and supported Youth Court activities in several Oklahoma cities.

Curriculum materials have been developed in health and physical education, and curriculum review in cooperation with the Oklahoma Curriculum Improvement Commission. These publications should be of help to the schools in their health education programs.

Program evaluation is a vital function of the staff as they continue to participate on North Central evaluation and evaluation teams for 50 health and nutrition education grant programs.

One primary responsibility of the staff is to provide vision and hearing screening in the schools. This screening is essential to detect potential problems early enough for remediation or correction. If such services are neglected, the child's learning can and will be affected. During 1987-87, 14,482 students were screened in 24 counties and 101 schools which resulted in 2,230 suggested referrals. Scoliosis screening is also offered as a service to the schools.

Coordinating the school nurse program is an on-going responsibility of the staff. Assistance was given in three statewide school nurse workshops, providing the latest information on school nurse services and health education promotion.

In 1987, 34 school districts were funded for health and nutrition education programs.

Oklahoma has 10 demonstration center schools selected for their outstanding comprehensive physical education programs. Staff was involved in the selecting process of the demonstration schools and continues to promote each of these programs as a model for other physical educators seeking new ways to update and improve their curriculum.

Cardiopulmonary resuscitation (CPR) is no longer a mandated program, but the Comprehensive Health Section continues to train and certify teachers and administrators in the life saving technique of CPR. Twelve CPR workshops were conducted, certifying 235 school personnel in basic CPR rescue.

As the staff strives to promote health education and healthy lifestyles throughout Oklahoma, cooperating agencies are a vital resource to these efforts. The American Heart Association; American Red Cross; State Health Department; State Mental Health Department; Oklahoma Health Planning Commission; Oklahoma Association for Health, Physical Education, Recreation and Dance; American Cancer Society; American Lung Association; Dental Health Association and Oklahoma Medical Association coordinate with the staff to disseminate current ideas, methods, techniques and materials to the public schools of Oklahoma.

CURRICULUM SECTION

The Curriculum Section has continued over the past year to evaluate curricular needs for Oklahoma schools. The section has coordinated and developed curriculum activities, inservice materials, and publications.

New publications developed during the past year include *Acquired Immune Deficiency Syndrome (AIDS) Prevention Education Curriculum Guide for Teachers, TOP Chem* (an activities-oriented curriculum guide for chemistry teachers), and *Skylights, A Handbook for Teaching Thinking Skills*.

More than 1500 inservices were provided to educators over the state in all basic skill areas as well as techniques and methods to improve classroom management and to meet individual needs of the child. Regional inservices were also provided to familiarize schools with the mandate providing for AIDS Prevention Education and to provide assistance for schools in implementing this law.

Thirty-five early childhood education and 22 alternative education grant programs were monitored.

Publications were disseminated to school districts in Oklahoma as well as the United States and countries throughout the world.

More than 2000 catalogues were mailed to schools listing computer programs available for copying based on the type of computer used. More than 3,500 public domain programs are also available for schools to copy. An extensive collection of loaned microcomputer software is housed for schools to preview before a decision is made to purchase the programs. MicroSift software evaluations are sent to many schools on a continual basis. The section also maintains an Apple Computer Lab and an IBM MS-DOS Computer Lab that offers the most current technology to instructional computer instructors across the state. The labs are also used for statewide teacher inservice training on hardware and software.

The section continues to work with national organizations, other departments of education, and educational laboratories to promote excellence in education.

GUIDANCE & COUNSELING SECTION

During the 1987-88 school year, the Guidance and Counseling Section consisted of a director, four coordinators and an administrative assistant. The major function of the section is to provide leadership in the implementation and improvement of developmental guidance programs in public schools across the state.

Building Skills for Tomorrow: A Developmental Guidance Model is the newly published resource and planning guide for guidance and counseling programming. The guide is a model designed to be a framework for the development of programs which systematically address the learning, personal/social and career vocational needs of all students. The guide emphasizes structured and accountable programs which are preventive in nature.

The section has had the responsibility of monitoring state-funded career education programs. During the 1987-88 school year, the Oklahoma Legislature funded 26 career education programs with $135,144. These programs were supervised by the Guidance and Counseling Section during the school year through monitoring visits to the school sites to see that the schools were in compliance with regulations stipulated for the grants.

The Career Education Coordinator has had the responsibility for inservicing public school personnel in the Vital Information for Education and Work program. VIEW is a career information program jointly developed and funded through the State Department of Vocational-Technical Education and the State Department of Education.

Other functions of the section include working cooperatively with the State Department of Vocational-Technical Education, assisting colleges with counselor education programs, working with professional counselor groups, providing professional staff development opportunities for Oklahoma school counselors, coordinating support services for the State Health Department, and assisting other state agencies such as the Oklahoma Employment Security Commission, Vocational-Rehabilitation and the Mental Health Agency. The section also disseminates information concerning the Oklahoma Academic Scholar Program, Concurrent Enrollment, Advanced Placement and ACT/SAT test scores.

The staff continues to promote excellence in education through developmental guidance and counseling services for all Oklahoma students.

STATE READING/ STUDENT TESTING SECTION

The continuation of the reading program and execution of the student testing program responsibilities are described as follows:

Services Offered In Reading

- Needs-based inservice continues to be the major focus of the section's work in reading. Through the continuous,

needs-based on-site inservice program provided by this section, the consultants are able to aid school personnel with evaluation of programs at all levels, instructional strategies and activities which are appropriate for meeting specific learning objectives, and planning/implementing reading programs in grades K-12.

- Development of materials containing practical ideas for teaching all of the various reading and related thinking skills is a priority. Hundreds of handouts and 12 major curriculum guides had been developed, published, and distributed with inservice by the end of 1987 to aid teachers in meeting students' instructional needs. The curriculum guides include *Reading Sampler* (revised 1983), *Metamorphosis: Challenging the Gifted Reader* (1982), *Parents, Kids, Teachers, Inc* (1982), *Principals/Reading: The Vital Connection* (1982), *Follow the Leader: Teaching English to Speakers of Other Languages* (1982), *OK-NEWS* (1983), *Kaleidoscope: Teaching Creative Reading, Thinking, and Writing Skills* (1985), *Mission Possible: Handling Reading Problems in the Regular Classroom* (1985), *Seeds of Freedom* (guides for K-6 and 7-12 to help teachers commemorate the life, philosophy and accomplishments of Dr. Martin Luther King, Jr., 1986), and *Teaching Reading in the Content Areas* (1986).
- Suggested Learner Outcomes in Reading were developed for grades 1-8 (1984) and 9-12 (1985) in conjunction with the Curriculum Section's work. These teaching/learning objectives have been distributed to requesting school faculties with inservice.
- The OK-NEWS program continues to be implemented and maintained in requesting school districts. Piloted with 100 schools in 1982 to encourage teachers to use the newspaper as a tool in teaching reading and creative writing skills, OK-NEWS continues to be used K-12 in many schools throughout the state.
- Over 700 schools continue to utilize portions of "Read On, Oklahoma!—A Five-Year Plan to Enhance Reading Achievement," implemented in 1984. This plan features motivational ideas to enhance reading as well as an outline to aid schools in evaluating and improving local school and district reading programs over a five-year period.
- A focus has been placed on encouraging schools to implement secondary reading programs to fit the instructional needs of students at all levels of reading abilities. Each year several schools are added to the list of those who continue to teach reading skills beyond the 5th and 6th grades. Services offered in implementing such programs include planning for staff, scheduling, and other organizational needs; determining the needs of students who will participate; developing entrance criteria and screening methods; providing guidelines for selection of materials and placement of students in appropriate levels of materials; designing facilities to meet program needs; and organizing all factors for individualizing the reading program.
- The section consultants work closely with and help provide leadership for Oklahoma Reading Council, a professional organization whose philosophy and goals focus on improvement of reading instruction throughout the state. In addition, section personnel have provided national exposure of Oklahoma's program through presentations at the International Reading Association and the World Congress on Reading conventions.
- The Reading/Student Testing Section collaborated with the Oklahoma Department of Libraries and the Department of Human Services on implementing "1989—The Year of the Young Reader," a project which is jointly sponsored nationally by the Center for the Book and the Children's Literature Center in the Library of Congress. The goal of this project is to give youth the gift of reading—motivating students to learn to seek reading as a leisure time activity. During 1988-89, the state reading counsultants will be conducting awareness inservices statewide to administrators, teachers, and parents to encourage participation in "The Year of the Young Reader." Manuals have been developed for classroom teachers and librarians. These include motivational reading activities, parent newsletters, and resource lists to help promote the enjoyment of quality children's literature.

Oklahoma School Testing Program (OSTP)

The Education Improvement Act of 1985 (H.B. 1466) mandated that a standardized, norm-referenced test be administered to students in grades 3, 7 and 10 statewide. The purpose of the program is "to afford a component for use along with other pertinent data in evaluating the effectiveness of the public schools as shown by the competence and progress of pupils in basic skills" (H.B. 1466). The skills measured by the test are reading, language arts, mathematics, science and social studies. The function of the OSTP is "through applied research ... to improve all phases of the state public educational system" (H.B. 1466).

To initiate the test selection process, a Request for Proposals (RFP) describing Oklahoma's need for specific materials and services was released to test companies nationwide. Using evaluation instruments containing more than 100 criteria, two statewide committees collectively comprised of 80 educators reviewed the four bids received. Based on the review committees' recommendation, the State Board of Education selected the Metropolitan Achievement Tests, 6th Edition (MAT-6), published by The Psychological Corporation, as the instrument for Oklahoma's use.

Tests were administered in March of 1986 and 1987 to an average of 40,000 students in each of grades 3, 7 and 10. Students with Individualized Education Plans pursuant to P.L. 49-142 participated in the OSTP only with written parental permission.

In compliance with the mandate in H.B. 1466, the State Reading/Student Testing Section provides pre-test inservice for all schools. Topics included implementation procedures, test content/objectives, maintaining test validity, test security requirements, and procedures for handling tests and related materials. Served each year in more than 350 inservices were approximately 8,500 test administrators, building and district test coordinators and school administrators.

A post-test inservice was conducted for all cooperating schools on (1) decoding information on test score reports, (2) interpretation of data, and (3) use of test results at the local classroom, building and district levels for improvement of instructional programs (e.g., aid in compliance with H.B. 1466 regarding use of test scores in developing the Five-Year School Improvement Plans).

In 1986, S.B. 426 mandated the administration of a direct writing assessment to students in 10th grade in 1986-87, and—providing that funds are available—to students in grades 7 and 10 (1987-88) and grades 3, 7 and 10 (1988-89). As a component of the OSTP, this program focuses on measurement of students' actual writing skills. Employing the state bid process and same evaluation procedures used in the OSTP, the State Board of Education selected the MAT-6 Writing Test, published by The Psychological Corporation, for use in measuring the writing skills of Oklahoma's 10th grade students.

Implementation of the Writing Assessment Component of the OSTP began with administration of the MAT-6 Writing Test to 38,568 10th grade students. During the 1987-88 school year, the writing skills of students in grades 7 and 10 were measured.

Legislation in 1988 did not include Writing Assessment for grade 3. Plans for the 1988-89 school year include administration of the MAT-6 to students in grades 3, 7, and 10, and the MAT-6 Writing Test to students in grades 7 and 10.

Continued maintenance of the OSTP includes providing both pre- and post-test inservices on both phases of the testing program for all schools statewide. Services within the post-test inservice program have been expanded at school administrators' requests to include interpretation and use of test scores for improvement of instructional programs in all grades 1-12.

Financial & Legal Services

LEGAL SERVICES

The Legal Services Division is composed of an attorney and a secretary. The primary function of the division is to assist the state superintendent, State Department of Education, and State Board of Education in all legal and regulatory matters. In the past year, the division has represented the Department in several special education lawsuits, with extensive emphasis on litigation surrounding the Hissom Memorial Center. In addition, Legal Services has worked on a major federal audit exception and coordinated negotiating efforts with four other states and federal officials.

Other activities engaged in by the Legal Services Division included serving as chairperson of the Education Subcommittee for the Governor's AIDS Task Force, chairman-elect of NASBE's legal conference, representation of the Department at meetings of the Juvenile Justice Oversight Committee, and participation in a training session for special education due process and appeal officers. Also, the Legal Services Division has assisted in drafting and briefing attorney general opinion requests, advised the State Board of Education on legal matters, pursued revocation of teaching certificates, and worked daily with various other sections within the Department on legal matters.

FISCAL SERVICES

Fiscal Services serves as the internal business office for the State Department of Education. Specific duties include:

Payroll: Staff members are responsible for preparing and distributing payrolls for approximately 585 employees. They must stay abreast of current federal and state regulations, coordinate records with employee insurance records and process any authorized special withholding requested by individual employees.

Insurance: All records for the employee group life, health, dental and disability insurance program for employees are maintained and processed by this office. The designated agent assists employees with information necessary to maintain the benefits of the insurance program. All worker compensation and risk management claims are also sustained by this office.

Purchasing: Fiscal Services processes all department purchasing of supplies, equipment and materials. The staff researches contract prices, prepares Office of Public Affairs requisitions and purchase orders, pre-audits invoices and delivery slips, prepares claims for payment and maintains up-to-date records of encumbered and non-emcumbered obligations. These staff members also prepare approved agency operating expenses for payment.

Inventory: The agency is required to maintain records for all furniture and equipment purchased. Each item is tagged, added to the electronic inventory tracking system, and followed through its life at the agency. Inventory and supporting records are updated weekly.

Supply Room: The department maintains an on-hand inventory of office supply items in order to facilitate filling requisitions for frequently requested items. Staff members maintain a perpetual inventory of these items and those stored in the departmental warehouse facility and work in the supply room on a daily basis to see that needs are met in a timely manner.

Travel/Reimbursement Claims: Employee claims for travel expenses and

reimbursement of expenses incurred inthe transaction of authorized department business are pre-audited, processed and submitted to the Office of State Finance for payment on a daily basis. Claims must comply with the State Travel Reimbursement Act and department policy. The agency travel coordinator arranges for the purchase and payment of all airline tickets for employees traveling to out-of-state meetings.

Cash Deposits: Cash monies received by various programs in the department must be deposited with the State Treasurer in a timely manner. These monies are received in the Fiscal Services office and deposited on a daily basis. Electronic transfers from letters of credit are also processed and deposited. Reconcilement of the agency clearing account and transfers to the cash funds are processed monthly.

Federal Payments to Schools: Reimbursements claims from schools for federal program funds and Johnson-O'Malley Indian Education funds are processed and distributed through this office. Fiscal Services monitors funds, accounts, programs and cash balances for all federal programs daily, prepares quarterly federal reports and assists schools in charging indirect cost.

Budget: As required in 70-3-104, the agency prepares a budget work program, requested budget and allotments. Staff members follow the legislative process on a daily basis and work closely with the State Superintendent to see that appropriation and budget procedures serve department needs effectively.

Legislative Reports: As part of the appropriations and budget process, the legislature requests financial reports for the Administrative and Support Functions portion of the agency budget. These are prepared by the Fiscal Services office and serve as a source of information for the agency operating appropriation.

Building Maintenance: Fiscal Services acts as liaison between the department and the Capitol Improvement Authority for maintenance and operation of the physical plant. Staff members also coordinate requests for installation and repairs of telephone services.

Accounting records are maintained on a computerized double-entry transactions system which includes all functions necessary to provide management with quantified information for planning, controlling and reporting the financial condition and operations of the agency. This system, which provides an advanced degree of internal accounting control, aids in upgrading data output necessary for maintaining accurate and reliable accounting records for administration, and for federal and state auditors.

All forms, systems, and procedures for administering accounting for the departments and establishments of state government are prescribed by the director of the Office of State Finance. Fiscal Services adheres strictly to these regulations, advises education officials and employees responsible for the receipt and disbursement of public funds of the principal laws governing the state's fiscal operations, and assists these persons in following necessary procedures.

PERSONNEL SERVICES

This office is responsible for a centralized personnel and affirmative action program following policies set by the State Superintendent of Public Instruction and approved by the State Board of Education. Our responsibility is to obtain and retain the best possible staff to carry out the ultimate goals of education.

State Superintendent Gerald E. Hoeltzel's philosophy is to select the best possible person for each position in the department based on job-related qualifications and individual abilities without regard to race, color, national origin, ethnic background, political party, religion, age, sex, or handicap.

Duties of the section are: to ensure that all requirements of federal and state laws and regulations applicable to employment are met, and that persons have been appointed and employed in accordance with the State Personnel Act; to establish job classifications and specifications; assist with annual budgets and costs for various federal projects; advertise positions, receive and process applications for employment; conduct interviews; transact all job status changes;

prepare personnel reports and surveys and maintain liaison with the Oklahoma Office of Personnel Management, Oklahoma Merit Protection Commission, other state agencies, and civil rights groups.

All permanent sick and annual leave records are calculated monthly and maintained in Personnel Services. Longevity dates are established and adjusted when necessary, and longevity pay is calculated each month. The Affirmative Action Plan is revised annually by Personnel Services, approved by the Office of Personnel Management and the State Board of Education, and distributed to all employees.

The State Department of Education presently has 554 employees to serve the public schools of Oklahoma and the general public. Employees are provided a personnel policies manual approved by the State Board of Education, written and distributed by this office. All new employees are given orientation and an Employee Handbook by the director of Personnel Services. A file is maintained on all current and past employees.

Some of the goals of the personnel office are to improve communications within the department and to help motivate employees toward common educational goals; to know as much as possible about the inner workings of the State Department of Education, the priority goals, the goals of each section and to help further these goals in any way possible.

PRINTING SERVICES SECTION

Printing Services performs various tasks of copy reproduction, offset printing, collating, binding, line copying, and halftone reproduction. The Printing Services Section is responsible for various functions relative to the management of publications services for the entire department. These responsibilities include the following:

- Maintenance of all printing equipment and copiers owned or leased by the State Department of Education and its 24 Regional Education Service Centers.
- Compilation of printing cost and impressions records for each program in the department.
- Maintaining an up-to-date inventory of all department printing equipment and supplies.
- Printing Services maintains an on-hand stock of supplies and paper for all printing equipment in the section.
- Printing Services provides on-call professional services to the Senate for printing bills during the legislative session.

During FY88, the section produced 15,496,911 copies. With an average run length of less than 200 copies, this figure indicates in excess of 75,000 jobs during the period.

RECORDS MANAGEMENT

The administrator for Records Management is responsible for the implementation of Oklahoma Statute 67, Records Management Program; Oklahoma Statute 74, Preservation and Disposition of Records; and Oklahoma Statute 65, Publications Clearinghouse.

This implementation has a guided, regulated procedure as outlined in the *Records Management Manual* and the *Manual for Publications Officers*. These manuals are published and kept current by the Oklahoma Department of Libraries. Statutory responsibility of state records resides with the Department of Libraries.

Activities which make Records Management function in the Department of Education are: (1) records clerks training sessions and (2) communication with administrators.

The ideal of Records Management is an appointed records clerk in each section of the agency. The records clerk is delegated to implement the records schedule, create a flow chart for the section and update the records schedule as new records are generated.

WORD PROCESSING SECTION

The Word Processing Section assists other programs within the agency in streamlining their copy-preparation functions for correspondence and publications. Staff members advise departmental program directors on the capabilities of the word processing equipment and help them select the best approach to utilize in preparing their projects for printing.

With their ease of editing, and staff attention to prompt turnaround, the word processors are ideal for preparation of camera-ready copy for department publications. Among those publications prepared in the section are the *School Laws of Oklahoma, Administrators Handbook* (blue book), *Oklahoma Educational Directory* (orange book), the *State Board of Education Regulations for Administration and Handbook on Budgeting and Business Management* (red book), as well as curriculum guides.

This equipment also allows time/cost efficiency in preparation of individually addressed mass mailings, as well as graphics capability for production of a wide variety of charts, graphs, grant applications, forms, state plans, bibliographies, transparencies and flowcharts.

During FY 87, production increased 27 percent. The section was responsible for 88,653 pages and 14,430 envelopes, for a total production of 103,083.

FINANCIAL SERVICES DIVISION

The assistant superintendent for finance in the State Department of Education is also the director of finance for public schools. The director of finance is assisted in the performance of duties by an assistant director of finance, one informational representative and one secretary.

For administrative purposes the Finance Division is divided into four separate yet interrelated sections: Auditing; State Aid; Teacher Personnel Records, and Transportation, Annexation and Consolidation. These sections work in harmony with each other and the division administration to service the several functions of the Finance Division and to best accommodate the public schools of Oklahoma.

The Finance Division is charged with the responsibility of allocation, disbursement, and accounting for those monies appropriated by the legislature for public schools. Added to this responsibility is the function of acting as a consultant to many publics including public schools, patrons, local boards and legislative committees. The division is called on regularly to make interpretations of school law and State Board of Education policy.

The division plays a leadership role in developing for the State Board of Education a detailed budgetary request to the governor's office describing the program needs of common education for the ensuing year and recommending the appropriations necessary to finance the request.

After the close of the fiscal year, the division is deeply involved in the compilation of data for the *Annual Report of the Oklahoma Department of Education*. This statutory required report is made after the *Estimate of Needs and Financial Report* of each school district is researched and processed.

Each July, the Summer Workshop for School Administrators is held in Oklahoma. This two and one-half day workshop speaks to the most critical needs in school administration. Approximately 900 school administrators attend this workshop each year.

The personnel of the division makes from eight to 20 presentations across the state addressing current school legislation in group situations.

The division communicates with public school administrators on a regular basis concerning any and all changes in the state's financial situation that will have an effect on local district finances. Personnel meets with many county and district educators each year for staff development services and as a consultant as requested. Intra-departmental communication is vigorously pursued in order to keep abreast of current policy and educational activity.

The Finance Division serves as a resource and research arm of the Okla-

homa Commission on School Funds Management.

The Finance Division is the official repository of the *State Board of Education Regulations for Administration and Handbook on Budgeting and Business Management*. The division makes recommendations for periodic review and revision and keeps a supply on hand for schools, finance classes and the general public. The department also has a collection of business form samples and other items useful to the local school business office. On occasion workshops are conducted for support persons in the school business office as well as orientation conferences for new independent treasurers.

During the year the Finance Division processes approximately 25,000 requests for student transfers from one school district to another. This number consists of both regular and emergency transfers.

Interagency communication is vital and on-going in the Finance Division. Informational exchanges among the several departments of state government are essential to secure reliable data from the Tax Commission, the budget office, and the state auditor's office. The state treasurer is most important in the prompt and accurate disbursement of monies to the schools.

The sections in the Finance Division are high production units engaged in very technical and sensitive activities. The distribution of funds, the experience records of teachers and support personnel, the safety of bus riders, and provision for textbooks coupled with business management, accounting and reporting are demanding on the personnel involved and has resulted in high credibility.

AUDITING SECTION

The Auditing Section provided services to education during the 1987-88 school year which assisted in ensuring that public funds were properly distributed to and expended by school districts in compliance with state and federal statutes and regulations.

Internal auditors audited the salaries paid to the teachers in each school district to determine that each teacher received the minimum salary required by law and that each substitute who taught in excess of 35 days was certified. These auditors also performed summer lunch program audits in accordance with federal regulations. Special assignments delegated to our auditors included reviews of accounting records and procedures utilized by the schools in their assigned areas and the investigation of complaints from patrons regarding alleged irregularities in accounting practices or the expenditure of district funds. When irregularities were found to exist, reports and recommendations were made to the State Board of Education. Beginning with the 1985-86 school year, the internal auditors performed audit reports on all state grants awarded to local school districts for the prior year.

The Auditing Section received and processed audits performed by area supervisors on daily attendance, membership and transportation records maintained by each school district. These audits verify figures which are used in calculating a part of the state aid distributed to schools. Some of the school districts requested additional state funds based on an increase in daily attendance. The area supervisors did a mid-term audit on each school district that made application for a mid-term adjustment.

Several complaints were processed concerning alleged illegal students attending other districts without legal transfers. State aid is withheld from these school districts until the county superintendent is notified and then makes a ruling on the legal residence of these particular students. Any question as to the place of residence of any pupil shall be decided by the county superintendent of schools of the county in which the pupil contends to reside.

Oklahoma statutes require an annual financial audit on all school districts in the state to be performed by independent auditors. Federal statutes also require compliance audits on each school district which receive in excess of $25,000 in federal assistance in any fiscal year. The Auditing Section has the responsibility of reviewing these independent audits.

evaluating audit comments and determining if these audits meet standards of state and federal statutes and regulations. In addition, the Auditing Section corresponds with local school officials and State Department of Education federal program administrators on each school district which has operational deficiencies in their accounting systems and/or violations of state and federal statutes and regulations. Time is devoted to this area by the entire auditing staff to provide the technical expertise necessary to assist the local districts in maintaining compliance with applicable statutes and regulations.

STATE AID SECTION

The primary objective of the State Aid Section is to distribute, collect and monitor reports from 611 school districts for making a fair and equitable allocation and distribution of state aid funds as provided by current legislation and State Board of Education policy. In 1987-88, the State Aid Section allocated and paid $762,899,701 from state-appropriated money to school districts and other agencies.

The allocation and distribution of state aid is a complicated process which requires a wealth of data from reports such as the Application for State Aid, School District Expenditure Report, Annual Statistical Report, Estimate of Needs and Financial Statement, and Attendance Audit. This section collects and verifies statistics from these reports that are necessary for calculation of the state aid formula as well as other line item allocations.

Once the allocation is made, a notice of allocation for each line item is forwarded to the school administrator, county superintendent, county clerk, district treasurer, and clerk of the board. Appropriated money is apportioned in monthly payments and processed through the Office of State Finance for payment to districts. The Office of State Finance forwards warrants to the State Aid Section for processing and mailing to local districts.

The State Aid Section certifies to the Oklahoma Tax Commission, State School Land Commission, and to county treasurers the average daily attendance of each school district for apportioning state dedicated revenues such as Motor Vehicle Collections, Gross Production Tax, Motor Vehicle Stamp Tax, REA Tax, and School Land Earnings.

Each year following the legislative session, a quarterly allotment request and a budget work program are prepared, which stipulate in which quarter money is needed for disbursement to school districts. Payments to districts for line items must be made as designated by the work program.

When the Estimate of Needs and Financial Statement is completed and approved by each county excise board, copies are forwarded to the State Board of Equalization. Starting in September, designated members of our staff spend approximately three months compiling income sheets from the Estimate of Needs and Financial Statements for each district. The income sheet reflects actual collections from all sources for the prior year, current valuations, and estimated appropriations for the current year. Copies of the forms are distributed to the schools of each county through the office of the county superintendent. The section analyzes schools' Estimate of Needs and Financial Statements, together with subsequent appropriations, to assist schools in getting all available funds appropriated, as well as to prevent schools from overencumbering their appropriations.

The section monitors the development of computer software for financial accounting to ensure that proposed software meets the requirements set forth by State Board of Education regulations. The number of schools processing their financial accounting by computer increases each year.

The State Aid Section processes approximately 25,000 requests for student transfers each year. Special student records are also processed and maintained.

The section is responsible for researching school budgets for bonded indebtedness, preparing budget analyses, preparing projections upon request, assisting in the revision of State Board of Education regulations, and assisting in

the development of potential legislation relative to school district financial accounting and what effects such legislation will have on the various school districts.

TEACHER PERSONNEL RECORDS SECTION

The Teacher Personnel Section has a staff of four and maintains a record of years of experience, salaries, certificate numbers and degrees of every teacher teaching in the public schools of Oklahoma—40,000 active records.

Both active and inactive records total around 114,000. Records in this office date back to the 1914-15 school year. The records from that time through 1930-31 are on microfilm, and those from 1931-32 through the present school year are bound in books, by county and district.

The year begins with mailing out the pre-print personnel report by August 20 to all school districts and county superintendents. They must be returned by October 15 and each one is checked and worked. This is usually completed in December.

After the pre-print is finished and all information has been updated by computer, we ask for a reprinted copy. This is called the Final Personnel. These reports are mailed to the superintendent and county superintendent of each district for their approval. After signing and notarizing this personnel, he or she returns it and we check any added teachers or changes that have been made.

A supplemental form is used for districts to report any changes that occur after returning the final copy of the personnel report. Substitute teachers teaching more than 35 days during the school year must also be reported on the supplemental form. These reports have to be checked and worked just as the other personnels.

A visible index file has been set up by the Teacher Personnel Section, by certificate number, showing the verified qualifications, teaching experience and military service for every teacher who has taught in Oklahoma since the year 1949-50. Our records are now on computer and each employee has a desk-top terminal. By entering the teacher number, the individual teacher's record will appear on the screen showing the year, state, county, district number, months employed, position held, annual salary, qualifications and the cumulative teaching experience.

The teaching experience for former Oklahoma teachers now teaching in other states is given on request.

Information is also available to superintendents and boards of education relative to qualifications and experience of prospective employees.

Service is also rendered to the Teacher's Retirement System.

When a deficiency between the salary being paid to a teacher and the legal minimum for which that teacher qualifies is found, the Teacher Records Section will notify the superintendent of the district that just compensation must be made to that teacher.

Maintain a record of job function, current salary, number of months employed and social security number of all support personnel. These reports must be checked for accuracy.

The Teacher Personnel Records Section maintains a print-out of all entry year teachers to provide information to other sections for payment of consultant fee.

An annual report for Legislative Handbook on number of teachers teaching in Oklahoma and average salary is compiled, as are the salary schedules of all districts in the state as per law by Dec. 15 each year.

Throughout the school year this section is constantly checking the accuracy of the Teacher Personnel Records.

TRANSPORTATION, ANNEXATION & CONSOLIDATION SECTION

The Transportation, Annexation, and Consolidation Section of the State Department of Education has several services that it offers to Oklahoma school districts.

Official maps of each school district are on file and kept up-to-date. Any time an annexation order from any county superintendent in the state is received, the official map is changed along with filing the order in a set of permanent annexation books located in the transportation section. Many annexation questions are handled through this section and annexation forms are dispersed to schools and county superintendents that need to move forward with annexations.

This section also responds to any requests for consolidation feasibility studies. A team of State Department of Education personnel visit the schools and make recommendations on what they have found. If a school district votes to dispense and join with another district, those official records are kept in this section. The same would hold true if two districts consolidate into one. Those records and maps of the district are also on file.

In the area of school bus transportation, several areas of service are available. School bus drivers are certified in 80 workshops held across the state. They are given 25 hours of instruction and must pass written tests given by the transportation specialists and a drive test administered by the Department of Public Safety at the end of the workshop in order to be certified. The certification is valid for five years, at which time a driver must attend a Tuesday session at one of the workshops for re-certification.

Each school bus in the state is also inspected on an annual basis to make sure it is in good operable condition for the daily routes and also for activity trips. If any bus has a deficiency, it is reported to the section by a field specialist and the school must reply in writing when the proper repairs have been made. Each driver certification is also checked at this time along with a current physical which is required each year.

This past year, approximately 6,800 buses and driver certifications were checked by the transportation specialists.

This section is also responsible for obtaining a price list for school bus bodies and chassis as required by the State Board of Education. This is a maximum price that a school district may pay for a school bus. These bodies and chassis must also meet all federal and state safety requirements. Close contact is maintained with these vendors to share pertinent information about upgrading safety standards of school buses.

After a school bus is purchased by a school district, a copy of the invoice is submitted to the section to make sure a district was not overcharged for the school bus.

The office personnel process all the information received from the school bus driver training workshops, inspections, accident reports, and verify certified drivers on the support personnel report. This information is dispensed in many different ways in safety reports, statistical reports, help in family estates, information to attorneys, oil companies, school districts, and is used as expert information and sometimes testimony in the courtroom.

This year, 4,500 school bus driver certificates along with their drive records will be processed. Six thousand, eight hundred school bus inspections will be put in the data bank along with 388 accident reports. This information is not only used by the State Department of Education, but also by legislators, members of the media, individual school districts, and several national safety organizations.

The Transportation Section helps schools to interpret the state law as well as State Board of Education regulations to get their most precious commodity, the children, to and from school as safely as possible.

Federal/State Programs

SPECIAL EDUCATION SERVICES

Special Education Section

"Handicapped children" means those children properly evaluated as being mentally retarded, hard of hearing, deaf, speech or language impaired, visually handicapped, seriously emotionally disturbed, orthopedically impaired, other health impaired, deaf-blind, multi-handicapped, or as having specific learning disabilities, who because of those impairments need special education and related services.

"Special education" means specially designed instruction, at no cost to the parent, to meet the unique needs of a handicapped child.

The Special Education Section assisted local schools in the provision of appropriate educational services for 63,134 handicapped students during the 1987-88 school year. This assistance included services such as: in-service, on-site reviews, technical assistance, review and recommendation of local district applications for P.L. 94-142 federal funds; review and recommendation of all special education transfers; review and recommendation of modified program requests; coordination of interagency special education related activities; processing, coordination and supervision of due process hearing and appeal reviews; review and recommendation of local school applications for homebound funding; review and recommendation of local school and state institution applications for P.L. 89-313 funding; coordination for registry and deaf-blind programming.

To aid in the timely dissemination of information, the Special Education Section developed the following publications for distribution.

Policies and Procedures Manual for Special Education in Oklahoma; Child Count Data: 1987-88; EHA-B Policies and Procedures Booklet.

In the area of federal funds and related activities, the section processed and made final recommendations for a total of 259 Education of the Handicapped Act - Part B (EHA-B) and 10 Preschool Incentive Project applications; 37 Infants and Toddlers applications from P.L. 99-457 serving 129 0-2 students; and coordinated activities and funding procedures for five Title VI-C (Deaf-Blind) regional subgrants. The section provided inservice and technical assistance to auditors of all special education projects.

The section awarded 67 Special Education Teacher Training Grants to qualified applicants for summer training using EHA-Part D monies.

Homebound: More than 2,000 children were provided academic instruction while they were unable to attend school due to illness.

Therapy: Reimbursement was made to local schools for 23 occupational or physical therapists.

Transportation: Approximately 4,618 handicapped students were provided unique transportation arrangements for 1987-88.

Deaf-Blind: Payments were made to schools in educating approximately 52 students.

Physically Handicapped: This area of reimbursement helped local schools to make special provisions in regular and special classrooms to accommodate approximately 579 physically handicapped students.

Also through special services, the section called on the resources of the American Printing House for the Blind to provide large-print books, braillers, talking books, recorders, stimulation kits, and other visual devices in educating legally blind students.

Regional Education Service Center Section

The State Department of Education sponsors 20 Regional Education Service Centers throughout Oklahoma, thus making services available to all areas of the state.

RESCs offer the services mandated by law and the State Board of Education. Professional assistance is provided to local school districts aimed toward the improvement of instruction for students.

During the 1987-88 school year the RESCs provided basic services which included, but were not limited to the following.

Student Appraisal

The Regional Education Service Centers have the responsibility for coordinating educational screening as mandated in the Prescriptive Teaching Act of 1974.

The total number of first grade students screened was 48,334.

The RESCs also provided individual diagnostic and evaluative services for students exhibiting an exceptionality in one or more areas.

The total number of students grades K-12 individually evaluated by the RESCs as potentially handicapped was 17,163.

The number of students grades K-12 individually evaluated for gifted was 4,399.

Media

All RESCs maintained a media library for the purpose of providing a lending service. Media catalogs were available at schools throughout each region. Loan periods generally ranged from two weeks to one month.

Each RESC provided teachers with materials for meeting the needs of exceptional children. Specially designed materials were provided on a prescriptive basis to classroom teachers working with students with an identified exceptionality. Media materials were available to all regional teachers after the needs of exceptional children were met.

The total number of teachers using media from the centers was 4,808.

Individualized Learning Plans

For students identified as exceptional, RESCs provided prescriptive teaching plans for classroom teachers.

The number of individualized learning plans written for students referred for possible special education placement was 17,094.

The number of individualized learning plans written for students referred for possible gifted placement was 4,394.

Centers also provided consultations for educators and parents working with or having exceptional children.

The total number of individual consultations with teachers and administrators was 33,632.

Staff Development

The RESCs assisted in organizing and presenting workshops, conferences, institutes, and other inservice programs for teachers, administrators, parents, and others working with students who have special needs.

These programs emphasized the awareness, utilization, and adoption of appropriate materials, learning theories, research findings, and other educational topics.

The total number of group inservice sessions conducted was 612.

A close working relationship is maintained with teacher training institutions, making current and updated information readily available to students, and teachers continuing their education.

Three times each year the RESC staff participates in the administration of teacher competency evaluations.

Coordination of Educational Services

RESCs assist in the improvement of present services for students, provide leadership in expansion of education services, and in curriculum development.

Interagency meetings are provided by each RESC for facilitating expanded services to students.

At the governor's request, each center coordinates two meetings a year which provides an opportunity for agencies to exchange information regarding services available, establishes a contact person, and assists in eliminating the duplication of services.

CHILD NUTRITION PROGRAMS DIVISION

This subdivision of the Federal/State Programs Division administers the federally funded Child Nutrition Programs. This office is organized into two units designated as School Programs and Non-School Programs. Each unit of the Child Nutrition Programs Division is composed of programs which give attention to specific areas as follows.

School Programs

National School Lunch Program: The objectives of this program are to make available to all students enrolled in public schools and institutions a lunch during a period designated as the lunch period, to provide nutritionally adequate meals that are acceptable to students thus reducing plate waste, and to provide assistance to participants to ensure minimum meal requirements are met, as well as to ensure that all programs are accountable.

School Breakfast Program: The purposes of this program are to make breakfast available in schools for students who for various reasons come to school without an adequate breakfast and to increase the number of school breakfast programs by continuing to notify all non-breakfast program schools to the availability of the program.

Special Milk Program: The purpose of this program is to encourage the consumption of fluid milk by children. Benefits are directed toward schools and institutions that do not participate in a meal service program authorized under the National School Lunch Act or the Child Nutrition Act of 1966 and/or split-session kindergarten children who do not have access to any school meal service authorized under these Acts.

Nutrition Education and Training Program: The objectives of this program are to instruct teachers, students, and food service personnel in sound principles of nutrition education, to train food service personnel in the principles and practices of food service management, and to develop classroom materials and curricula.

Non-School Programs

Child Care Food Program: The objectives of this program are to provide nutritionally adequate meal services to needy children in public or private nonprofit institutions and private for profit institutions which receive Title XX compensation for at least 25 percent of the children enrolled, especially those located in economically needy areas, and to provide assistance to participants to ensure improvement of the overall accountability and quality of the Child Care Food Program.

Summer Food Service Program For Children: The purpose of this program is to make nutritious meals available to all preschool and school age children from needy areas, to encourage, where possible, other organized activities for children at the site locations, and to improve overall accountability and quality of the Summer Food Service Program for Children.

Special Milk Program: The intentions of this program are to ensure the availability of fluid milk to children, to reduce the price charged to children who pay for their milk, and to serve milk free to eligible children under U.S. Department of Agriculture guidelines.

FEDERAL / SPECIAL SERVICES DIVISION

Federal funds provide services to many segments of the educational community where special needs or problems exist. Many of the federal programs are designed to serve in the alleviation of problems identified by Congress to be of a national interest and some are aimed at regional or state problems. Federal funds are supplementary to state and local resources and were never intended to be a replacement.

Approximately 6 percent of the revenue available for education in the public schools of Oklahoma in 1986-87 came through 14 program grants. This percentage has been as high as 13 percent in FY1966 and FY1968. The Federal/Special Services Division of the State

Department of Education is responsible for administering and monitoring the programs initiated in the 14 program areas. In 1986-87 the state education agency administered grants to Oklahoma local education agencies amounting to aproximately $95.9 million. This does not include the funds received by local education agencies directly from the federal government for Indian education, school lunch, vocational-technical education, and bilingual education.

The Federal/Special Services Division of the State Department of Education provides technical assistance to local education agencies in all program areas through workshops, printed information and consultants. This division has a full-time equivalency of 112.9 professional and support staff. The cost of administering the federal and state programs assigned to this division for providing workshop and technical assistance to local education is less than 5 percent of the appropriated funds.

The categorical nature of federal financial assistance programs administered by the Federal/Special Services Division imposes that companion funds be used to achieve specific objectives. The first responsibility of the State Department of Education is to prepare and develop state plans of operation which are subsequently to be approved by the U.S. Department of Education. A state plan is an administrative pattern for state operation and must be consistent with the federal law and federal regulations. Subsequently, the State Board of Education, upon the recommendation of the Federal/Special Services Division, approves state regulations for program implementation. Such regulations must be consistent not only with federal law, but also state law and State Board of Education policies.

Section administrators have the prime responsibility for preparing information relating to these programs, also application forms and other documents necessary for school district utilization. A section administrator typically prepares and disburses guidelines and application forms and related materials; receives applications from school districts, and recommends their approval to the State Board of Education; works with the Fiscal Services Section in disbursing funds; monitors local projects, assists in evaluating the success of programs funded from federal sources and inter-relates these programs with programs funded from other sources.

Besides the categorical nature of the federally financed programs, they inherently serve as catalysts for change in the process of elementary and secondary education methods thus dramatically encouraging departure from tradition. Quite appropriately, these funds are to be used to supplement and not supplant state and local funds thereby commanding that districts maintain their financial effort.

ADULT EDUCATION/ COMMUNITY EDUCATION/LITERACY

The Adult Basic Education program provides for the teaching of basic courses to all adults who have not achieved the ninth grade level in education. People attending these classes must be 18 years of age, except in special cases, and must not be attending public schools.

The Adult Basic Education program in Oklahoma is designed to meet the individual needs of adults. Through this program, adults are provided opportunity to acquire knowledge and become proficient in using skills that will assist them in becoming better citizens, better employees, better homemakers and more productive individuals.

The Adult Basic Education program deals with the total concept of continued learning for personal effectiveness and good living attitudes, knowledge, and skills. Adult Basic Education is administered by the State Department of Education through 40 adult learning centers. A learning center is basically an area (building, room or rooms) where facilities, materials, personnel, and students come together to service the educational needs of individual adults on a scheduled or unscheduled basis. It may be used by one adult for enrichment, another for reinforcement and another for remediation. The learning center is for all

adults 18 years and older who want and need educational improvement.

Through the Adult and Community Education/Literacy Section, the State Department of Education issues certificates of high school equivalency to adults who make application for the GED test through an adult learning center. Applicants must be 18 years of age or older and not attending public schools. A 17-year-old may take the test with permission from his/her legal guardian and the high school principal or superintendent of the school in the district in which the student lives.

In this program during 1987 there were 8,581 certificates of equivalency issued to people who had not received a high school diploma. Since 1965, the beginning of the program, there have been 111,270 high school equivalency certificates issued in the State of Oklahoma through the Adult Basic Education program. The program is funded 90 percent by the federal government and 10 percent by the state.

The Adult and Community Education/Literacy Section also administers the Community Education and Community Literacy program.

Community education is based on the philosophy that all citizens have an inherent right to participate in their community to the maximum of their ability and have the opportunity for self-fulfillment during all stages of life.

The Oklahoma State Department of Education considers the community education program an excellent opportunity to foster greater efforts at meeting the special needs of many target groups in Oklahoma and an opportunity for the schools and communities to build a closer liaison for mutual benefits.

The FY-88 appropriation of $401,000 funded 61 programs: 44 continuations and 17 new programs. These funded LEAs will serve in excess of 204,992 participants in the coming year.

The community education concept was sanctioned as an official part of the State Department of Education in October, 1977 with the employment of the first state coordinator of community education with federal funds.

Community education funds provide for the improvement and expansion of existing K-12 programs. Community education in Oklahoma provides the incentive for some communities to provide a climate for lifelong learning. A major benefit is that of weaving together the facets of a student's environment—the home, the school and the community.

The purpose of a Community Literacy Program is to assist individuals in acquiring reading skills necessary to enable them to further their education and become productive citizens.

The State Legislature appropriated $200,000 to be awarded on a competitive basis to school districts based on criteria and rules established by the State Board of education.

The funds must address either of two distinct areas of need: (1) children experiencing difficulty learning to read or (2) adults who cannot read at a functional level. Functional level is defined as below the fifth-grade level.

The appropriation of funds for literacy programs will be divided equally between the two need areas.

The applicant shall agree to utilize the funds for new approaches in addressing the literacy needs of the identified population.

Due to the limited appropriation of funds for this effort, consortiums of school districts and school districts which act as the local education agency (LEA) for one of the 40 adult learning centers in Oklahoma are selected to offer this service.

Literacy programs were administered in 11 school districts and one consortium consisting of four school districts in Oklahoma county in FY87-88.

COMPENSATORY EDUCATION SECTION

The Compensatory Education Section, more commonly called the Chapter 1 section, administers federally funded programs under Chapter 1 of the "Augustus F. Hawkins—Robert T. Stafford Elementary and Secondary School Improvement Amendments of 1988." The major goal of the Compensatory Education Section is to assist local education agencies to design programs resulting in an

improved achievement level of children residing in and attending eligible Chapter 1 attendance area schools, of delinquent children residing in state institutions, and children of migrant farm workers.

In fiscal year 1988, this section administered the following types of Chapter 1 programs: 594 Basic Chapter 1 programs, 4 Delinquent and Correctional programs, 35 Migrant Education programs. These Chapter 1 projects were planned and implemented on the basis of identified student needs as revealed by an annual needs assessment. Project components consist of academic programs of remedial reading, mathematics and language arts.

The state education agency receives an allocation for each of the Chapter 1 programs. These funds are then allocated to participating school districts or other state agencies, which in turn develops applications stating the proposed expenditures of allocated funds. During fiscal year 1988, Oklahoma's total Chapter 1 grant award was $36,954,876. This grant award was distributed to local school districts in the following amounts: $1,268,231 to schools implementing programs for children of migrant farm workers; $161,829 for programs assisting delinquent children in state institutions; $35,186,467 for programs assisting children attending eligible Chapter 1 attendance area schools; and $338,349 for state administration.

In seeking to achieve its goal, the Compensatory Education Section assists school administrators with the process of identifying children in need and designing programs of instruction to meet those needs. The state education agency staff approves the local education agencies' applications, provides program improvement assistance, assists in program evaluation and monitors program activities. Monitoring of Chapter 1 programs provides an opportunity to observe the daily operations of each program and identifies areas of noncompliance with federal statutes as well as federal and state regulations and guidelines, and provides technical assistance to bring programs into compliance.

CHAPTER 2

Chapter 2 of the Education Consolidation and Improvement Act was enacted as part of Subtitle D of Title V of the Omnibus Budget Reconciliation Act of 1981 authorized by P.L. 97-35. This Act folded prior categorical funded programs into an education block grant. The education block grant concept is intended to provide flexibility for local school districts to make program and funding decisions that meet local school elementary and secondary educational needs and priorities. The Act includes provisions for the participation of children enrolled in private nonprofit schools.

The Act provides that the funds used locally be based on a districtwide assessment of instructional needs and determined by a local consultation committee whose composition and responsibilities are defined by Section 566(a)(4) of Chapter 2.

The governor recommends to the State Board of Education a 22-member Chapter 2 State Advisory Committee that is active in advising the SDE on the formula for distributing Chapter 2 funds to LEAs and on other phases of Chapter 2 implementation, evaluation and administration.

Each state education agency receives an annual allotment from the U.S. Department of Education based upon the annual appropriations by Congress and the number of students aged 5-17 in the state as determined by the 1980 census.

Funds allotted to the state for local educational agencies (LEAs) are distributed based on an approved formula in the form of an allocation. That formula distributes: 80 percent of the LEA's allocation based on average daily membership (ADM), 5 percent on the basis of the pro rata number of special education students served, 5 percent on the basis of the pro rata number of students from low-income families (LIF) served, 5 percent on the basis of school size in an inverse relationship of all school districts in the state, and 5 percent based on student sparsity.

Education program purposes included in the consolidation of Chapter 2 are outlined in Subchapters A, B, and C.

Subchapter A: Basic Skills Development

Use of funds under this subchapter shall be to develop and coordinate programs designed to improve elementary and secondary school instruction in the basic skills of reading, mathematics, language arts—written and oral communications.

Basic skills programs include five basic steps:

- Diagnostic assessment to identify the needs;
- The establishment of learning goals and objectives;
- To the extent practicable, preservice and inservice training and development programs for administrators and other personnel;
- Activities designed to enlist the support and participation of parents; and
- Procedures for testing students and for evaluation of the effectiveness of programs for maintaining a continuity of effort for individual children.

Subchapter B: Educational Improvement and Support Services

Programs and projects authorized under this subchapter include:

- The acquisition and utilization of school library resources;
- The development of programs designed to improve local educational practices in elementary and secondary schools, and particularly activities designed to address educational problems such as the education of children with special needs—educationally deprived children, gifted and talented, or children with special education needs;
- Programs designed to assist LEAs, upon request, to more effectively address educational problems caused by the isolation or concentration of minority group children;
- Comprehensive guidance, counseling and testing programs;
- Programs and projects to improve the planning, management and implementation of programs, including fiscal management;
- Programs and projects to assist in teacher training and inservice staff development; and
- Programs and projects to assist LEAs to meet the needs of children in schools undergoing desegregation.

Subchapter C: Special Projects

Programs and projects authorized under special projects include:

- Preparation of students to use metric weight and measurements;
- Emphasis on arts-in-education as an integral part of the curriculum;
- In-school partnership programs in which the parents of school-age children participate to enhance the education and personal development of the children and preschool partnership programs in which the schools work with parents of preschool children in cooperation with programs funded under the Head Start-Follow Through Act;
- Consumer education;
- Preparation for employment, the relationship between basic academic skill development and work experience, and coordination with youth employment programs carried out under the Comprehensive Employment and Training Act;
- Career education;
- Environmental education, health education, education about legal institutions and the American system of law and its underlying principles, and studies on population and the effects of population changes;
- Academic and vocational education of juvenile delinquents, youth offenders, and adult criminal offenders; and
- Programs to introduce disadvantaged secondary school students to the possibilities of careers in the biomedical and medical sciences, and to encourage, motivate, and assist them in the pursuit of such careers.

Participation in Chapter 2 is voluntary. Beginning in the 1982-83 school year through the present, districts have steadily accepted this source of supplemental funding. Reports from participating LEAs indicate approximately 97 percent of the students in Oklahoma have the potential to benefit from Chapter 2 services on an annual basis.

Chapter 2 attempts to offer competitive grants every two years. These funds are awarded from the SDE's 20 percent dis-

cretionary funds which provide funds that would be in addition to the LEAs allocation. During the 1987-88 school year $617,014 was awarded to LEAs from FY 1987 Discretionary Carry/Over funds. The focus of these funds fell into two program areas: (1) Subgrants awarded to LEAs willing to design a reading improvement program for at risk students in grades 6-12 who were determined by a standardized test to be at or below the 50th percentile. (2) To assist LEAs to initiate or expand an Effective Schools Program in one of the five distinguishing areas of effective schools research.

a. Strong and Effective Administrative and Instructional Leadership.
b. Emphasis on the Acquisition of Basic and Higher Order Skills.
c. A Safe and Orderly School Environment.
d. A Climate of High Expectations; and/or
e. Regular Monitoring of Student Progress.

Twenty reading programs and 16 effective schools programs were funded. Funds were about equally divided between the two focuses. Program impact will be available at the end of the 1988-89 instructional year.

Dissemination about Chapter 2 sponsored activities is accomplished through information shared at SDE initiated workshops, through articles in the *Oklahoma Educator*, *Superintendent's Newsletter*, and Chapter 2's association with professional, educational and community service organizations, and their lines of printed communications. Chapter 2 co-sponsors an annual Education Fair that disseminates exemplary program practices found in Oklahoma's public and private nonprofit schools. Chapter 2 awards a $1,000 *Dissemination of Education Information* subgrant to LEAs for each exemplary program selected to appear on the Education Fair program. The subgrants help offset expense incurred in the disseminating process. Other Education Fair co-sponsors include: Cooperative Council for Oklahoma School Administration (CCOSA), Oklahoma Education Association (OEA), Oklahoma State School Boards Association (OSSBA), and the Oklahoma Curriculum Improvement Commission (OCIC). Ten percent of the participating LEA programs are monitored annually by the Chapter 2 staff. An annual summary of the Chapter 2 administration, program implementation and LEA program effectiveness is collected, compiled, published and widely distributed.

INDIAN EDUCATION SECTION

The position of the Indian Education Section of the State Department of Education is that of educator, counselor, leader, advocate and friend of the Indian student in Oklahoma. It verifies the student eligibility for enrollment in specific programs, maintains financial records of programs being implemented in the schools and provides technical assistance to the schools and the Indian parent committees. It established links of communication, keeping them open to maximize the involvement by parents, tribal leaders and ultimately, the students themselves, in their own education.

The Johnson-O'Malley program for the Creek and Osage Nations and the Northeast Eight Tribes is administered through the Indian Education Section, whose funds are provided by a contract with the Bureau of Indian Affairs. Eligible students must show proof of tribal membership or their degree of Indian blood.

In the implementation of P.L. 92-318, Title IV-A, we act as liaison and provide technical assistance to schools, parent committees, provide inservice training for funded staff and work in the area of curriculum development. Title IV-A is for students of Indian descent.

The Indian Education Section is involved annually with many training programs such as student computer institute, student leadership, paraprofessional staff training, student art institute, professional/ paraprofessional counselor training, and Indian Parent Committee training. Each year we conduct area-wide conferences in the interpretation of federal regulations, designing of components to be funded, developing applications and working with schools and Indian parents in cost effective, meaning-

ful academic experiences for Indian students.

The Indian Education Section's effort is accomplished through a director, an executive secretary, a coordinator of accounting and reporting, and five field-based program facilitators who work in areas with a high concentration of Indian students, serving 313 school districts in 61 counties for a total of 69,982 students of Indian descent.

EESA TITLE II

On Aug. 11, 1984, the President signed into law the Education for Economic Security Act (P.L. 98-377), 98 Stat. 1267, 20 USC 3901.

Title II of the Education for Economic Security Act (EESA) provides financial assistance to states to improve the skills of teachers and instruction in mathematics, science, computer learning, and foreign languages, and to increase the access of all students to such instruction.

The primary focus of Title II is upon training, retraining, and inservice training for elementary and secondary teachers of mathematics and science. If all training, retraining, and inservice training needs of the district's math and science teachers have been met, then the district may request a waiver for use of the funds for mathematics and/or science instructional materials and equipment, training in computer learning and instruction (limited to 30 percent of allocation), and/or training in foreign languages (limited to 15 percent of allocation).

The initial grant award of program funds for elementary-secondary education was received in late May, 1985, and the program was implemented June 1, 1985.

The state's allocation is based on the number of children, aged 5 to 17 inclusive, in the state relative to the number of those children in all states based on the most recent satisfactory data available from the Bureau of the Census.

To receive initial funds, the state submitted a state plan in accord with program guidelines. The state plan, developed cooperatively by the State Department of Education, State Department of Vocational-Technical Education, State Regents for Higher Education, and the governor's office, was submitted by the governor's office.

The statewide assessment of need was completed and submitted in summary form to the secretary, U.S. Department of Education, along with an updated, revised state plan to fulfill requirements to receive second-year funds.

Program regulations specify that 70 percent of the state's allocation is allocated to the state educational agency (SEA) for elementary-secondary cent education. Thirty percent of the state's allocation goes to the Regents for Higher Education for use in institutions for higher education.

Regulations specify how the elementary-secondary funds are to be used. Seventy percent of the elementary-secondary funds are allocated to local school districts on a formula basis. Fifty percent of the district's allocation is distributed according to the relative number of children enrolled in public and private schools within the disand. 50 percent is distnbuted according to the same proportion as funds under Chapter 1 of the Education Consolidation and Improvement Act (ECIA) of 1981 are distnbuted to local educational agencies (LEAs). Twenty percent of the state's allocation of elementary and secondary funds is used to fund exemplary/demonstration district projects and/or dissemination of information about exemplary/demonstration projects to LEAs throughout the state. The SEA must use at least 5 percent of the elementary-secondary funds for technical assistance to LEAs and may use up to 5 percent of program funds for the required state assessment of need and program administration.

Each district submitting an initial application for the allocated funds must complete an assessment of need relative to the eligible content areas and budget funds to address identified needs.

Durnng the program's initial year, the 1985-86 school year, needs assessment data was submitted by 281 school districts and 258 districts applied for their allocation of funds. Most of the districts which did not apply are small districts with very small allocations. Districts submitting needs assessment data repre-

sented 74 percent of the state's student average daily membership (ADM) while districts making application for their allocation of funds represented 72 percent of the state's student ADM. Thirteen exemplary/demonstration projects were funded.

Funds for the participation of private school children and teachers are provided through participating local public school district allocations. Area vocational-technical schools have a per pupil allocation calculated for students enrolled in vocational-technical education from participating public school districts.

Second-year applicants for program funds completed a brief evaluation report on the use of first-year funds and budgeted funds to address needs identified in the state assessment of need. Needs were identified in all eligible content areas for additional training, retraining, inservice training, and instructional materials and equipment.

In the program's second year (the 1986-87 school year), 201 districts completed applications for allocations of funds. Nine exemplary/demonstration/dissemination of information projects were funded.

Although program funding for the second year was reduced to 43 percent of the first year's amount, third-year funding was increased 46 percent with 236 districts applying for their allocation of funds. Statewide workshops were offered by the State Department of Education through exemplary/demonstration/dissemination of information Title II funds in the subject areas of Math/Computer Learning, Science, and Foreign Languages.

MULTICULTURAL EQUITY PROGRAMS

The overall goal of Multicultural Equity Programs is to help all students reach their potential. Educational options should not be limited by sex, age, ethnicity, native language, socio-economic level or handicapping condition. Multicultural Equity Programs provide Oklahoma educators with appropriate technical assistance, teacher training activities, and resources to promote equal education opportunity in the state.

Multicultural Equity Programs consist of the following four federally funded projects: Bilingual Education (Title VII ESEA) and National Origin (Title IV-CRA), administered by the Bilingual Education and National Origin Section; Race Desegregation (Title IV-CRA), administered by the Human Relations Section; and Sex Desegregation (Title IV-CRA), administered by the Educational Equity Section. The following is a summary of purposes and services available from each of these four individual projects.

BILINGUAL EDUCATION/ NATIONAL ORIGIN

Bilingual Education, Title VII of the Elementary and Secondary Education Act, is a competitive, direct grant program administered by the Office of Bilingual Education and Minority Languages Affairs, U.S. Department of Education. Grants are awarded to local educational agencies, institutions of higher education, state educational agencies, and other non-profit organizations for instructional programs for limited English proficient (LEP) students and for training programs for teachers and parents of LEP students.

During the 1987-88 school year, 28 Title VII projects were funded in Oklahoma with a total allocation of $2,992,760. Twenty-two projects directly served over 3,000 students from preschool through 12th grade representing Asian, Hispanic, Native American and other language groups. Native American programs comprised the majority. Five projects were funded to train educational personnel and parents of LEP students and the State Department of Education (SDE) was funded to collect data and provide technical assistance and training.

The goals of the Bilingual Education Project are to collect, analyze and report data on Oklahoma's population of LEP people and the educational services provided or available to those people and to provide technical assistance for activities designed to improve the effectiveness of programs for LEP persons in the state. This assistance is provided upon request and based on needs identi-

fied by Title VII grantees as central to meeting project goals. Services are also targeted to build capacity within the SDE as well as Title VII projects and other organizations serving LEP persons.

Services available through the Bilingual Education Project include: technical assistance to Title VII projects in such areas as data collection, language assessment, program implementation, staff training, materials development, capacity building, program evaluation, and others identified by the section's Needs Assessment Survey. The section coordinates services of technical assistance and evaluation with support service centers across the nation to assist Title VII and non-Title VII entities serving LEP persons. Additional services provided are acquisition and distribution (on loan basis) of appropriate supplementary instructional and resource materials, program development assistance to districts seeking Title VII funds, and other assistance pertaining to language acquisition and second language learning.

The National Origin Project provides technical assistance and training to districts with language minority/limited English proficient students to ensure that students whose dominant or primary language is not English are not limited in their participation in educational programs by a lack of proficiency in English. Assistance is available to school boards and other responsible governmental agencies impacting the education of this target group.

Services available through the National Origin Project include technical assistance in the development or implementation of activities or the development of curriculum materials for the direct instruction of students of limited English proficiency, to afford them a full opportunity to participate in all educational programs. Also included are coordination of services to districts through federally funded technical assistance, evaluation, and service centers across the nation; acquisition and distribution (on loan basis) of appropriate supplementary instructional and resource materials; and collection and dissemination of information on language acquisition and second language learning issues.

During the 1987-88 school year, this project provided inservice/awareness programs to more than 2,000 educators representing over 200 local educational agencies. Participants included administrators, counselors, teachers and teacher assistants, and represented over 20 language groups. The project also provided appropriate information to more than 41,000 state and school personnel.

The Bilingual Education/National Origin Section will continue efforts with other SDE sections and appropriate agencies for clustering of services in providing training, resources and awareness sessions for staff members on current approaches for serving LEP persons in their respective fields.

EDUCATIONAL EQUITY SECTION

The purpose of the Sex Desegregation Project, Title IV, Civil Rights Act of 1964, is to provide technical assistance to requesting local educational agencies in procedural compliance with Title IX of the Education Amendments of 1972 (P.L. 92-318), and to facilitate sex-fair educational practices in the state through inservice training for educators. Project services are available to any requesting local educational agency.

The following is a list of project services available: technical assistance with Title IX compliance; inservice training workshops for teachers, library media specialists, counselors and administrators in the areas of compliance and equity infusion into existing curriculum; and presentations at various civic organizations. These services are closely coordinated with the Oklahoma Vocational-Technical Education Division, appropriate regional technical assistance centers, and the Race and National Origin Desegregation Projects within the department.

During the 1987-88 school year, this project provided intensive training in the above cited areas to 212 school districts and involved more than 1,000 classroom teachers, counselors, school superintendents, principals, and other school administrative staff. The impact of the training should reach approxiately 31,000 students. This project will continue to offer similar services to local educational agencies during 1988-89.

RACE DESEGREGATION PROJECT

The purpose of the Race Desegregation Project, Title IV, Civil Rights Act of 1964, is to assist local educational agencies in procedural compliance with Title VI of the Civil Rights Act of 1964 and in coping with special education problems occasioned by desegregation.

The project provides technical assistance and training programs to any requesting local educational agency in the state. Technical assistance is provided by correspondence, telephone and direct visits to local educational agencies. Training programs are designed to meet the requesting local educational agency's identified needs. Regional and statewide workshops are also conducted which address current civil rights compliance issues and/or specific skills proven to be effective in implementing desegregation plans. The following is a list of types of workshops conducted during 1987-88: compliance and legal requirements for school districts; resource management addressing school climate/community and parental support/educational excellence and school achievement; multicultural aspects of educational equity; self-concept and school achievement. During the 1987-88 school year, the race desegregation staff conducted a statewide workshop entitled "Equal Access to Computer Technology."

This project provided services during the 1987-88 school year to approximately 200 local educational agencies representing more than 2,000 educators. Target audiences included superintendents, elementary and secondary principals, teachers, directors of elementary and secondary education, school board members, librarians, methods teachers from universities and colleges, support personnel and community persons. This project will continue to offer similar services to local educational agencies during 1988-89.

SCHOOL PLANT SERVICES

The School Plant Services Section administers a number of federal and state programs. Most are facility related except for the Impact Aid Program, Hazard Communication Standard and the energy programs.

P.L. 81-815 School Construction, major disaster programs under P.L. 81-815 and P.L. 81-874, and building accessibility to the handicapped under Section 504 of P.L. 93-112, and the Asbestos Hazard Emergency Response Act (AHERA), make up the federal programs.

Plan review, school inventory, four-year capital improvement planning, mobile classrooms, and technical assistance to schools in any area pertaining to maintenance and operations of buildings or grounds is offered under state programs.

Asbestos

Six people have been trained on inspection of asbestos and writing management plans. Schools are given advisory assistance for meeting the Asbestos Hazard Emergency Response Act (AHERA) requirements, as well as supplying the current information from the State Labor and State Health Departments. Asbestos Awareness Training for maintenance and custodial employees has been given to over 900 people. The training is required by AHERA and lacks only information about their particular workplace to be complete. A sample asbestos management plan has been developed.

Impact Aid

This section provides assistance in completion and review of applications for funding and acts as a clearinghouse for final processing and transmittal to Washington, D.C. Funds under this program are paid directly to eligible districts by the U.S. Department of Education in recognition of the impact certain activities of the federal government have on local education agencies.

In FY 1988, 339 school districts, or 55.48 percent of Oklahoma's school districts, received funding under P.L. 81-874, Impact Aid.

In school year 1987-88 Oklahoma school districts received $24,676,936.65 for Impact Aid.

Districts claimed 18,450 "A" category students and 33,914 "B" category students.

Sixty districts are classified as "A" only, 39 as "B" only, and 219 as "A" and "B". There are 21 districts that are section 2 only with an additional 34 that are section 2 and 3. Of the 339 applicant districts, 67 are super "A" and 22 super "B".

Approximately the same number of students in FY 1989 and schools—if appropriations are the same—should receive between $22 and $23 million.

Major Disaster Assistance

Under this act, assistance is available to local education agencies that have suffered a natural disaster. In areas designated as disasters by both the governor and the U.S. President, funds may be available to repair or replace damaged buildings and contents. The section makes on-site visits, appraises damages, and assists in completion of applications for funding, investigates all disasters, reviews the situation, and contacts the appropriate sections of the State Department of Education for assistance. Nineteen disasters were investigated this year.

School Construction Assistance (P.L. 81-815)

Although nationwide funding is negligible and eligibility is difficult to establish, the U.S. Congress provides assistance to LEA's for building minimum school facilities, in recognition of the impact of certain federal activities. The section provides on-site review of affected LEA's, substantiates their needs, and assists in completing the application for funding.

Maintenance and Operations Training (MOPS)

Through hands-on learning experience and instruction from the MOPS Training Manual, personal and technical assistance is provided to LEA administrators, and maintenance and operations personnel to enable them to provide a more effective and attractive learning environment in their schools.

During FY 88, 11 workshops were conducted, training 894 maintenance and custodial personnel.

In addition to the 11 workshops, one statewide workshop was conducted for school plant managers, with 176 school plant managers and administrators attending.

School Plan Review

There were 170 plans reviewed for FY 88. This included 121 new construction projects and 59 remodel/renovation projects with an estimated cost of $63 million. Of the new construction projects, 105 were student-related facilities (i.e., classrooms, gymnasiums, physical education, cafeteria, etc.).

The average cost of school construction projects was approximately $40/sq. ft. for elementary standard construction; $24/sq. ft. for elementary pre-engineered construction; $42/sq. ft. for junior high/middle school standard construction; $27/sq. ft. for junior high/middle school pre-engineered construction; $44/sq. ft. for high school standard construction; and $23/sq. ft. for high school pre-engineered construction.

Building Accessibility

To enable LEA's to develop school facilities and programs which are accessible to the physically handicapped, guidance, literature, and on-site technical assistance is provided on request.

Assistance in the evaluation process for supplemental construction funds is also provided.

School Facilities Inventory Study

To aid in program development and facility planning for schools at both the state and local level, the section maintains a computerized inventory of the school facilities across the state. Information kept on file for every school includes site size and amenities, building materials and condition, as well as the characteristics of individual facilities within each school building.

The update of the school facilities inventory is an ongoing process. In most cases, much of the required information is gathered from documents submitted to the Department through the plan review process.

Common Schools Capital Improvement

To assure the development and continuance of school facilities suited to the needs of education, state law directs each LEA to develop a four-year capital improvement plan and the State Department of Education to develop a state master plan. The section provides guidance and assistance to LEA's in developing their plans.

Mobile Classrooms

To minimize the disruption of educational programs caused by a natural disaster such as fire, wind or flood, a limited number of mobile classrooms that can be used by affected LEA's for specified periods of time are available. On-site technical assistance is provided.

Technical Consultation

Section staff, which includes educators, architects, engineers, and specialists in landscaping and school operations and maintenance, are available to provide assistance to districts on-site in any of their specialty areas upon written request. We have made 203 visits to school districts and provided technical assistance.

1987-88 ANNUAL REPORT

Volume 2

Dedicated to growth and excellence

Oklahoma State Department of Education

Gerald E. Hoeltzel
State Superintendent
of Public Instruction

Oklahoma State Department of Education

Gerald E. Hoeltzel, State Superintendent of Public Instruction

The Honorable Henry Bellmon
Governor of Oklahoma

Members of the Oklahoma Legislature

Oklahoma is a state that is dedicated to growth and excellence. This dedication is seen in the leadership of our government, the hard work of our citizens, the commitment to excellence by our educators, and the positive success of our business organizations and service agencies. Steady economic growth is becoming a reality for Oklahoma because of the efforts and partnerships formed by these people.

The report submitted in this document is evidence that a partnership between educators and the leaders of our government/business is underway. Many educational improvements have been implemented that affect students, teachers, administrators and, ultimately, the future well-being of our state.

We believe our commitment to excellence and dedication to growth is a key factor to obtaining economic prosperity for Oklahoma. As you read and reflect on this report, please be assured that we will continue to form valid partnerships dedicated to educational excellence, and that as these partnerships thrive, our great state will prosper.

Respectfully submitted,

Gerald E. Hoeltzel

Gerald E. Hoeltzel
State Superintendent
of Public Instruction

2500 North Lincoln Boulevard Oklahoma City, Oklahoma 73105-4599

CONTENTS

State Aid Formula 1

State Totals: Valuations, Revenues, Expenditures 2

Valuations, Mills Levied, General Fund Expenditure and Balance; ADA/ADM, General Fund Revenue and Per Capita by School District, by County 3-79

History of Comparative Data 80-81

Comparable Data Beginning with 1924-25 82-83

Original Entries Enrollment: 1960 to Present 84

Public School Statistics: 20 Year Comparison: Original Entries, Total Average Daily Attendance 85

High School Graduates 86

Statistical Information on Teachers 87-88

Annexations and Consolidations of School Districts 89-90

Number of Accredited Schools 91-92

This publication, printed by State Department of Education Printing Services, is issued by the Oklahoma State Department of Education as authorized by Oklahoma Statute 70-3-104, Paragraph 7 and State Superintendent of Public Instruction Gerald E. Hoeltzel. One thousand copies have been prepared and distributed at a cost of $3,573.08. Copies have been deposited with the Publications Clearinghouse of the Oklahoma Department of Libraries.

Financial Services Division

State Aid Formula Used to Calculate Foundation & Salary Incentive Aid
1987-88

The following is the formula, as provided by law, used in the calculation of Foundation and Salary Incentive Aid. It reflects the correct amounts and factors used during the 1987-88 school year.

FOUNDATION AID

1. Weighted ADA _____ x F. A. Factor 945.00 = $ _____

SUBTRACT CHARGEABLE INCOME

(Valuations: Up to 12% - Down to 12%)

1986 Net Assessed Valuation

2. Adjusted Valuation x 15 Mills_____ x .015 = $ _____

(1985 - 1986 Collections of:)

3. 75% of County 4 Mill_____ = $ _____
4. School Land = $ _____
5. Gross Production = $ _____
6. Auto License = $ _____
7. R.E.A. Tax = $ _____
8. Total Chargeables (Lines 2 - 7) = $ _____
9. FOUNDATION AID (Line 1 Total Minus Line 8) = $ _____

ADD THE FOLLOWING

10. TRANSPORTATION SUPPLEMENT: (A.D.H. x Per Capita) (Transp. Factor)

_____ x _____ x 1.39 = $ _____

SALARY INCENTIVE AID

1. 38.99 Incentive Aid Guarantee x _____ (Dist. Weighted ADM) = $ _____
2. _____ Adjusted District Assessed Valuation ÷ 1000 = $ _____
3. Step 1 (–) Step 2 = $ _____
4. Step 3 x Mills Levied Above 15 = SALARY INCENTIVE AID = $ _____
5. Foundation Aid plus Transportation Supplement plus Salary Incentive Aid = BASIC FORMULA = $ _____
6. H.B. 1110 Supplement = $ _____
7. BASIC STATE AID = Basic Formula Line 5 + Supplement Line 6 = $ _____
8. Adjustments Due to Additions and Reductions = $ _____

TOTAL STATE AID (Line 7 + Line 8) $ _____

STATE TOTALS

Actual 1987-88 ADA (Average Daily Attendance)	547,149.19
Actual 1987-88 ADM (Average Daily Membership)	578,062.80
Weighted ADA Used for 1987-88 State Aid	718,232.18
Weighted ADM Used for 1987-88 State Aid	758,358.23
